The War Within the Union High Command Thomas Joseph Goss, 2003 As this book reveals, professional generals viewed the war as a military problem requiring battlefield solutions, while appointees and President Lincoln focused more emphatically on the broader political contours of the struggle. The resulting friction often eroded Northern morale and damaged the North's war effort. Goss challenges the traditional idea that success was measured only on the battlefield by demonstrating significant links between military success and the achievement of the Union's political objectives. Examining commanders like Benjamin Butler, Nathaniel Banks, John McClernand, John Fremont, and Franz Sigel, Goss shows how many filled vital functions by raising troops, boosting homefront morale, securing national support for the war, and sometimes even achieving significant success on the battlefield. *Connecting and Distancing* Ho Khai Leong, 2009 Connecting and distancing have been two prominent themes permeating the writings on the historical and contemporary developments of the relationship between Southeast Asia and China. As neighbours, the nation-states in Southeast Asia and the giant political entity in the north communicated with each other through a variety of diplomatic overtures, political agitations, and cultural nuances. In the last two decades, with the rise of China as an economic powerhouse in the region, Southeast Asia's need to connect with China has become more urgent and necessary as it attempts to reap the benefit from the successful economic modernization in China. At the same time, however, there were feelings of ambivalence, hesitation, and even suspicions on the part of the Southeast Asian states vis-à-vis the rise of a political power which is so less understood or misunderstood. The contributors of this volume are authors of various disciplinary backgrounds: history, political science, economics, and sociology. They provide a spectrum of perspectives by which the readers can view Sino-Southeast Asia relations. *Racial Borders* James N. Leiker, 2002 When the Civil War ended, hundreds of African Americans enlisted in the U.S. Army to gain social

mobility and regular pay These black soldiers protected white communities forced Native Americans onto government reservations patrolled the Mexican border and broke up labor disputes in mining areas Despised by the white settlers they protected many black soldiers were sent to posts along the Texas Mexico border The interactions there among blacks whites and Hispanics during the period leading up to World War I offer Leiker the opportunity to study the opportunity to study the complicated even paradoxical nature of American race relations *The Aftermath of the Civil War* Wiley Britton,1924
