Practical Design Patterns for Teaching and Learning with Technology Yishay Mor, Harvey Mellor, Steven Warburton, Niall Winters, 2014-05-08 These are challenging times in which to be an educator The constant flow of innovation offers new opportunities to support learners in an environment of ever shifting demands Educators work as they have always done making the most of the resources at hand and dealing with constraints to provide experiences which foster growth This was John Dewey's ideal of education 80

years ago and it is still relevant today This view sees education as a practice that achieves its goals through creative processes involving both craft and design Craft is visible in the resources that educators produce and in their interactions with learners Design though is tacit and educators are often unaware of their own design practices The rapid pace of change is shifting the balance from craft to design requiring that educators design work become visible shareable and malleable The participatory patterns workshop is a method for doing this through engaging practitioners in collaborative reflection leading to the production of structured representations of design knowledge The editors have led many such workshops and this book is a record of that endeavour and its outcomes in the form of practical design narratives patterns and scenarios that can be used to address challenges in teaching and learning with technology The Nurse Educator's Guide to Assessing Learning Outcomes Mary E. McDonald,2007-03-07 Online by Design Yvonne Mery,Jill Newby,2014-04-23 As more and more academic libraries consider offering online credit courses or converting face to face courses to online instructional librarians need to quickly get up to speed about online course design and delivery Even the most seasoned instruction librarian may be intimidated by the thought of converting their classroom course into an online course Based on both sound research in the area on of online pedagogy and extensive teaching experience this book includes ideas for Creating innovative and interactive information literacy tutorials that engage students Addressing common pitfalls of online instruction including communicating with students designing a course that is easy to navigate and getting the most out of the course management system Developing assignments and assessments that work in an online environment Incorporating the ACRL Information Literacy Competency Standards for Higher Education into the materials development process A must for both seasoned instruction librarians and those just starting this book will provide librarians with the practical information needed to move their instruction online and teach a successful course **Nursing Education Perspectives** ,2008
