Take Joy:

Oneness Philip J. Ivanhoe, 2017-11-01 At the center of a constellation of key ideas in East Asian philosophical traditions there lies a conception of oneness among human beings Human beings are intricately and inextricably intertwined and share a common destiny with other people creatures and things The ramifications of this idea are wide reaching and resonate with important debates and concerns in contemporary Western philosophy but many at the forefront of their fields in the West are unaware of the fundamental shift in perspective that might be available to them One of Ivanhoe's aims in this work is to challenge the dominant paradigm of hyper individualism which still enjoys a commanding position in a great deal of contemporary theory and practice in the humanities and social sciences and to describe and advocate for an alternative conception and sense of self world and the relationship between them In particular Ivanhoe who has an extensive background in and has published influential work on virtue ethics and Asian philosophy investigates the implications of oneness for conceptions of the self virtue and human happiness Through the lens of oneness he explores topics such as conceptions of the self selfishness and self centeredness virtues spontaneity and happiness drawing support from wide ranging interdisciplinary sources Rather than starting from the standpoint of Western philosophy and then reaching out to Asian philosophy from a distance Ivanhoe advances a thesis drawn from East Asian sources and explicitly challenges the theoretical asymmetry that is characteristic of most comparative study which often simply applies Western theories to non Western material

Learning Disability Gordon Grant, Paul Ramcharan, Margaret Flynn, Malcolm Richardson, 2010-05-16 With its spread of chapters covering key issues across the life cycle this text has established itself as the foundational primer for those studying the lived experiences of people with learning disabilities and their families and outcomes achieved through services and support systems Recognising learning disability as a lifelong disability this accessible book is structured around the life cycle The second edition is refreshed and expanded to include seven new chapters covering Aetiology Breaking news about disability and early intervention Transition to adulthood The sexual lives of women Employment Personalisation People with hidden identities With contributions from respected figures from a range of disciplines the book draws heavily upon multidisciplinary perspectives and is based on the latest research and evidence for practice The text is informed by medical social and legal models of learning disability exploring how learning disability is produced reproduced and understood Extensive use is made of real life case studies designed to bring theory values policy and practice to life Narrative chapters describe in the words of people with learning disabilities themselves their lives and aspirations They helpfully show readers the kinds of roles played by families advocates and services in supporting people with learning disabilities New exercises and questions have been added to encourage discussion and reflection on practice Learning Disability is core reading for students entering health and social care professions to work with people with learning disabilities It is a compelling reference text for practitioners as it squarely addresses the challenges facing people with learning disability their loved ones

and the people supporting them Contributors Dawn Adams Kathryn Almack Dorothy Atkinson Nigel Beail Christine Bigby Alison Brammer Jacqui Brewster Hilary Brown Jennifer Clegg Lesley Cogher Helen Combes Clare Connors Bronach Crawley Eric Emerson Margaret Flynn Linda Gething Dan Goodley Peter Goward Gordon Grant Chris Hatton Sheila Hollins Jane Hubert Kelley Johnson Gwynnyth Llewellyn Heather McAlister Michelle McCarthy Alex McClimens Roy McConkey David McConnell Keith McKinstrie Fiona Mackenzie Ghazala Mir Ada Montgomery Lesley Montisci Elizabeth Murphy Chris Oliver Richard Parrott Paul Ramcharan Malcolm Richardson Bronwyn Roberts Philippa Russell Kirsten Stalker Martin Stevens John Taylor Irene Tuffrey Wijne Sally Twist Jan Walmsley Kate Woodcock The editors and contributors are to be congratulated on the production of a relevant and contemporary text that I have no hesitation in both endorsing and recommending to all involved in supporting and or caring for people with learning disabilities Professor Bob Gates Project Leader Learning Disabilities Workforce Development NHS Education South Central UK This is a seminal text for students and practitioners researchers and policy makers Associate Professor Keith R McVilly Deakin University Australia If I were to personally recommend any book for budding or current learning disability professionals then this would be it James Grainger Student Nurse Social Worker Sheffield Hallam University UK The book gives a true wealth of good practice scenarios that can only help practitioners be good at what they do and aspire to be Lee Marshall Student Nurse Sheffield Hallam University UK

Singers, Heroes, and Gods in the Odyssey Charles Segal, 2001 One of the special charms of the Odyssey according to Charles Segal is the way it transports readers to fascinating places Yet despite the appeal of its narrative the Odyssey is fully understood only when its style design and mythical patterns are taken into account as well Bringing a new richness to interpretation of this epic Segal looks closely at key forms of social and personal organization which Odysseus encounters in his voyages Segal also considers such topics as the relationship between bard and audience the implications of the Odyssey's self consciousness about its own poetics and Homer's treatment of the nature of poetry *Mind, Body, and Morality* Martina Reuter, Frans Svensson, 2019-03-18 The turn of the millennium has been marked by new developments in the study of early modern philosophy In particular the philosophy of Ren Descartes has been reinterpreted in a number of important and exciting ways specifically concerning his work on the mind body union the connection between objective and formal reality and his status as a moral philosopher These fresh interpretations have coincided with a renewed interest in overlooked parts of the Cartesian corpus and a sustained focus on the similarities between Descartes thought and the philosophy of Baruch Spinoza *Mind Body and Morality* consists of fifteen chapters written by scholars who have contributed significantly to the new turn in Descartes and Spinoza scholarship The volume is divided into three parts The first group of chapters examines different metaphysical and epistemological problems raised by the Cartesian mind body union Part II investigates Descartes and Spinoza's understanding of the relations between ideas knowledge and reality Special emphasis is put on Spinoza's conception of the relation between activity and passivity Finally the last part explores different aspects of Descartes moral
