management P 4 de la couv **A Dublin Magdalene Laundry** Mark Coen, Katherine O'Donnell, Maeve O'Rourke, 2023-01-26 Towards the end of the 20th century the decades of abuse and neglect perpetrated in Ireland's comprehensive carceral network began finally to be exposed. The mistreatment endured by children and others on the margins of Irish society notably women in these orphanages, reformatory schools, industrial schools, psychiatric hospitals, County Homes, Mother and Baby Homes, adoption agencies, and Magdalene Laundries now attracts increasing investigation and scholarship. Bringing together contributions from leading experts across a broad range of disciplines including history, philosophy, law, archaeology, criminology, accounting, and architecture, this book offers a comprehensive exploration of the Magdalene system through a close study of Donnybrook Magdalene Laundry in Dublin. To date, the Justice for Magdalenes Research group has recorded the names of 315 women and girls who died at Donnybrook Magdalene Laundry. By focusing on this one institution on its ethos, development, operation, and built environment and the lives of the girls and women held there, this book reveals the underlying framework of Ireland's wider system of institutionalisation. The analysis includes a focus on the privatisation and commodification of public welfare, reproductive injustice, institutionalised misogyny, class prejudice, the visibility of supposedly hidden institutions, and the role of oral testimony in reconstructing history. In undertaking such a close study, the authors uncover truths missing from the state's own investigations, shed new light on how these brutal institutions came to have such a powerful presence in Irish society, and highlight the significance of their continuing impact on modern Ireland.

History of Art Horst Woldemar Janson, Anthony F. Janson, 2004 For forty years, this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world, boasting the matchless credibility of the Janson name. This newest update features a more contemporary, more colorful design and a vast array of extraordinarily produced illustrations that have become the Janson hallmark. A narrative voice makes this book a truly enjoyable read, and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship. Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth-century art historians speaking about specific pieces of art featured throughout. Significantly changed in this edition is the chapter on The Late Renaissance, in which Janson offers a new perspective on the subject, tracing in detail the religious art tied to the Catholic Reform movement whose early history is little known to many readers of art history. Janson has also rearranged early Renaissance art according to genres instead of time sequence, and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians. With a truly humanist approach, this book gives written and visual meaning to the captivating story of what artists have tried to express and why for more than 30,000 years.
