That is why its methodology is quite different from the methodology of other social sciences. The ethnographic method or fieldwork method is the soul of Anthropology. This method helps a researcher to establish a balance between subjectivity and objectivity. There are a number of books written in English by different scholars on different aspects of Anthropological researches. But they are not found in one cover and they lack Indian expression. The book presents systematically chapters on Historical Background of Anthropological Researches, Anthropological Approaches, Types of Researches, Research Designs, Hypothesis, Theory, Law and Concept, Techniques of Data Collection, Scrutiny and Data Processing, Presentation of Data, Statistics, Statistical Analyses of Mean, Median, Mode, Standard Deviation, Partition Value, Correlation, Chi square, Fitness of good Report writing, Thesis dissertation writing, Scientific paper writing and Bibliography writing. The simple language of the book will definitely serve the purpose of students, scholars, researchers interested not only in Anthropological Researches but Researches in other Social Sciences.

**Structure and Function in Primitive Society** A. R. Radcliffe-Brown, 2017-09-16

Excerpt from *Structure and Function in Primitive Society Essays and Addresses*. An examination of the essays in this volume will suggest that his writings have been just as influential as his personal contacts. He has not considered that he has been engaged in teaching and research in social anthropology for almost fifty years written as much as most persons of his academic eminence. What he has written however has been faultless. We do not mean by this that we necessarily accept his methods or conclusions in detail but rather that the point of view he expresses could not have been better expressed. Each of the essays is perfect in conception and in expression and they are tied together by a consistency and direction which is rare in modern anthropology.
