Structure Of Religious Knowing:

The Structure of Religious Knowing John D. Dadosky,2004 The Structure of Religious Knowing, a Dialectical Reading of Eliade's Notion of the Sacred Through Lonergan's Theory of Consciousness ,2001 *The Eclipse and Recovery of Beauty* John D. Dadosky,2014-01-01 Inspired by Bernard Lonergan s philosophy of consciousness Dadosky presents a philosophy of beauty that is grounded in contemporary Thomistic thought Responding to Balthasar he argues for a concept of beauty that can be experienced understood judged created contemplated and even loved Experiencing the Knowing of Faith Sharon Warner,2000 What is religious faith And how does modern society view truth Sharon Warner in *Experiencing the Knowing of Faith* discusses the understanding formed by deep truth or knowledge intrinsic to a person s self identity She critiques today s susceptibility to the paradigm of Cartesian dualities such as mind body and subject object and in doing so utilizes the philosophy of Alfred North Whitehead and Michael Polanyi Concluding with an exploration of the relevance of this theory for teaching faith the work will be of great use to religious scholars and to philosophers **Between Psychology and Psychotherapy (Psychology Revivals)** Miller Mair,2013-10-31 In this highly original and thought provoking work the late Miller Mair puts forward his ideas for a new psychology First published in 1989 he deals with issues of fundamental importance to the future of a psychology guided by genuine enquiry and concern rather than mere professional self interest Crossing and re crossing boundaries between psychology psychotherapy and philosophy and between science and art he demonstrates the linkages between the personal and the impersonal subject and object inside and outside with a daring not previously risked by anyone working in the area Dr Mair stresses the importance of a poetic approach in psychology and psychotherapy and the need to explore and understand the nature of psychology through an imaginative freedom of language He emphasizes that a poetic awareness and attentiveness is fundamental to any pursuit of understanding of ourselves or others This is a very personal book concerned with personal knowledge but it is meant for anyone who seeks to understand themselves and others and what is involved in coming to such understanding Focusing on ordinary human experience and moving towards literary and artistic modes of expression the author invites you to enter in follow what you think and feel as he proposes a radical revision of much that is accepted in psychology and in psychotherapy *Shattering Silos* Lambert Zuidervaart,2022-08-15 Questions first raised by Hannah Arendt in the 1960s take on new urgency in the post truth era as political leaders blithely reject facts in the public domain Is truth politically impotent Are politics inherently false Is the search for truth still relevant *Shattering Silos* a companion volume to *Religion Truth and Social Transformation* and *Art Education and Cultural Renewal* provides a path breaking response As in his two previous books Lambert Zuidervaart challenges the boundaries philosophers set up between epistemology ethics and political philosophy Knowledge he argues takes different forms in various social domains and all are subject to political struggle A critique of contemporary society must draw on many social domains of knowledge including the arts and religion and should recast politics as a striving for

truth in the broadest sense Proposing a new conception of truth one that emphasizes the unity of knowledge and truth as well as their diversity among different social domains Zuidervaart asks what such holism and pluralism suggest about how we understand politics and society This book proposes a new understanding of large scale social change challenging how most people think about knowledge and truth Interweaving epistemology social criticism and political thought Shattering Silos aims to help redirect an allegedly post truth society
