Sammlung Jan Mukařovský, 1978 *Art and Language: Explorations in (Post) Modern Thought and Visual Culture*
Christiane Treichl, 2017-12-19 *Art and Language Explorations in Post Modern Thought and Visual Culture* sheds new light on the symbiotic relationship between art and language by exploring how these cultured sets consociate on philosophical and art historical levels Against the backdrop of visual semiotics the first section of the book considers the differences between art and language from various vantage points meaning making asking if art is a language Ernst Cassirer's symbolic forms Jan Mukařovský's signs and Gilles Deleuze's philosophy The second section of the book deals with the works of post modern artists from diverse cultural backgrounds who unfasten traditional linguistic and artistic systems by destabilising the viewer and blurring the boundaries between art and language The author argues that this is the most productive cutting edge aspect of the word image relationship of that period Language provides post modern art with its thrust and focus and offers a site for critical intervention The artistic forays the author embarks on cover a wide range touching on Surrealism Dada Arabic Calligraphy and Chinese Conceptualist Art Structure, Sign, and Function Jan Mukařovský, 1977 Slavische Erzähltheorie Wolf Schmid, 2009 Der Sammelband beleuchtet in acht Beiträgen die von Mitgliedern der Hamburger Forschergruppe Narratologie und von externen Experten verfasst worden sind Grundkategorien der russischen und tschechischen Erzähltheorie die für die Entwicklung der internationalen Narratologie bedeutsam wurden oder Potential für die weitere Theorieentwicklung enthalten Zu den untersuchten Konzepten gehören Fabel und Sujet die Sujetentfaltung das Ereignis und die fiktiven Welten In vergleichenden Studien werden die russische Kompositionstheorie die Autortheorien des slavischen Funktionalismus formalistische Film und Theaterkonzepte und die narrative Semantik in der Konzeption des Prager Strukturalismus behandelt Der Bogen der besprochenen Theoretiker reicht vom russischen Formalisten Viktor Sklovskij und dem formalismunahen Kompositionstheoretiker Michail Petrovskij über die tschechischen Strukturalisten Jan Mukařovský Felix Vodička und Lubomír Doležel bis zur Zentralfigur der Moskauer Tartu Schule Jurij Lotman **The Reading of Theoretical Texts** Peter Ekegren, 2002-01-04 Since the structuralist debates of the 1970s the field of textual analysis has largely remained the preserve of literary theorists Social scientists while accepting that observation is theory laden have tended to take the meaning of texts as given and to explain differences of interpretation either in terms of ignorance or bias In this important contribution to methodological debate Peter Ekegren uses developments within literary criticism philosophy and critical theory to reclaim this study for the social sciences and to illuminate the ways in which different readings of a single text are created and defended Central and Eastern European Literary Theory and the West Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the

region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the history of translations transformations and migrations that conditioned its relationship with the West
