## **Student Power:**

Student Power, Participation and Revolution John Erlich, 1971 These are 33 documents of a decade of dissent college and high school writings that mirror disenchantment discontent despair and hope writings that moved students and their allies to further analysis and action They illustrate as the editors note student concerns ranging from the search for personal identity and self fulfillment to the need for revolutionary change in America We believe it is right to see the student rebellion more as affirmation than condemnation more as a faith in the perfectability of man than a denial of this possibility Familiar names appear in these pages Tom Hayden Cathy Wilkerson Mark Rudd Les Coleman Bernardine Dohrn Karen Wald and more Even more familiar are the issues dealt with war peace and the draft educational relevance black student demands student worker alliance women s liberation violent vs nonviolent action reform vs revolution political action effective or ineffective Major statements range from the catalytic and prophetic Port Huron Statement of 1962 to the 1968 70 documents reproduced here From jacket description *The Knowledge Factory* Irving Louis Horowitz, William H. Friedland, 1971 Book on student activism on campus *Equal Educational Opportunity* United States. Congress. Senate. Select Committee on Equal Educational Opportunity, 1971 **When Students Protest** Judith Bessant, Analicia Mejia Mesinas, Sarah Pickard, 2021-07-29 Student political action has been a major and recurring feature of politics across the globe through the past century Students have been involved in a full range of public issues from anti colonial movements anti war campaigns civil rights and pro democracy movements to campaigns against neoliberal policies austerity racism misogyny and calls for climate change action Yet student actions are frequently dismissed by political elites and others as adolescent mischief or manipulation of young people by duplicitous adults This occurs even as many working in governments traditional media and educational organisations attempt to suppress student movements Much of mainstream scholarly work has also deemed student politics as undeserving of intellectual attention These three edited volumes of books help set the record straight Written by scholars and activists from around the world *When Students Protest Universities in the Global South* is the second in a three volume study that explores university student politics in the global south The authors document and analyse how generations of university and college students in the Global South responded to issues such as problems in their own universities as well as standing up against violent military dictatorships human rights abuses oppressive poverty foreign interference and the effects of neoliberal austerity regimes Contributors to this this volume also reveal repeated moves by states and institutions to stigmatise and suppress student political action while highlighting how those students developed new kinds of political action further demonstrating why this rich and complex global phenomena is worthy of more attention *The American Promise, Volume C* James L. Roark, Michael P. Johnson, Patricia Cline Cohen, Sarah Stage, Susan M. Hartmann, 2012-01-09 The American Promise is more teachable and memorable than any other U S survey text The balanced narrative braids together political and social history so that students can discern overarching trends as well as individual stories The voices of
