Whos Hatching:

Who's Hatching? Jennifer Sattler, 2017-10-19 An endearing story of two young dinosaurs eagerly anticipating a new baby's arrival. Dinosaurs are perennially popular and this book filled with charming text and fun illustrations is sure to be the one that children reach for every day. When two curious dinosaurs find an egg that will soon hatch they are filled with questions: What will this new baby look like? Will it be big or tiny? Will it have red spots or green spots? Will it be loud or quiet? The possibilities are endless and the dinosaurs just don't know what to expect. But that's okay because maybe just maybe there's going to be a surprise that they never even counted on and it will be exactly what they wanted all along. *Look Who's Hatching!* World Wildlife Fund (U.S.), 1998 In this fascinating interactive book children learn that not all eggs are alike and neither are the babies that hatch from them. Who is Hatching? Charles Reasoner, 1997 Science Made Simple, Grade 1, 2012-10-22 This science series is so easy to use. Activities build upon children's natural inquisitiveness about their world. Numerous hands-on activities encourage children to make observations, ask questions, test ideas, and share results. By actively engaging in inquiries, children begin to develop a knowledge and understanding of the scientific world. As students become involved in these activities, there are suggested questions that help you guide them through the learning process. In addition, we've provided information on literature, bulletin boards, extensions into other curricular areas, and technology such as World Wide Web sites and instructional television.
