## **Advanced Mental Health:**

*Advanced Practice in Mental Health Nursing* Agnes Higgins, Nina Kilku, Gisli Kort Kristofersson, 2022-11-06 This textbook explores issues central to the provision of recovery orientated care based on ethical principles and human rights perspectives. Written by academics and nurse practitioners, this comprehensive text draws together theory, research, and practice to map the landscape of Advanced Practice in Mental Health Nursing (APMHN) in Europe. Underpinned by a rights and relational based approach to care, the textbook is organized around six themes: theoretical and historical perspectives, foundations for collaborative working, therapeutic engagement in different contexts, beyond the clinical dimension of the APMHN role, advancing the evidence based practice agenda, and emerging issues and challenges. Each theme consists of a number of chapters that are designed to address different aspects of APMHN. With a focus on illuminating the collaborating aspect of their role and advancing nurses' competencies, debates and guidance are provided in areas such as therapeutic alliance, assessment, care planning, mental health promotion, family work, trauma, diversity, and culture, spirituality, risk, and uncertainty, and prescribing. In addition to addressing the leadership, education, and advocacy role, specific chapters explore the APMHN role in linking evidence to practice, in the participatory generation of evidence, and in maintaining professional competence. With a focus on future challenges and opportunities, the textbook concludes with discussion on issues such as eMental Health and future challenges and possibilities facing APMHNs, including challenges in informing policy, democratizing services, working across service and disciplinary boundaries, collaboratively shaping the evidence agenda, as well as sustaining their role into the future. Within the book, theoretical debate is grounded in case studies and/or examples from across Europe. This textbook is especially relevant to Mental Health Nurses undertaking studies at the Advanced Practice level. It is also suited to all Mental Health Nurses studying at post graduate level who wish to advance their practice, irrespective of the country. Educators, researchers, and policy makers involved in the area of Mental Health and Advanced Nursing Practice, along with people with lived experiences, will find the text of relevance.

**The Advanced Practitioner in Mental Health** Clare Allabyrne, 2026-06-02 The definitive resource for healthcare professionals navigating the complexities of advanced practice in mental health. *The Advanced Practitioner in Mental Health* is the first comprehensive textbook dedicated specifically to advanced practice in the mental health field. The editor brings decades of clinical expertise and academic leadership to address this critical gap in specialised resources. This groundbreaking text provides a framework for practice for advanced practitioners in mental health, addressing the complex challenges faced by healthcare professionals as they navigate these evolving roles to deliver high quality, clinically governed care across diverse mental health and primary care settings. Readers will find content aligned with both the NHS England NHSE 2017/2025 Multi Professional Framework for Advanced Practice and the NHSE 2020/2022 Advanced Practice Mental Health Curriculum and Capabilities Framework. Evidence based approaches to complex clinical decision making, cognitive bias mitigation, and advanced risk assessment.

methodologies Expertise by experience perspectives integrated with co production and co creation models for authentic patient centred care Content addressing specialised populations including perinatal mental health child and adolescent services substance abuse forensic settings and neurodevelopmental disorders Support for professional development from initial competency through advanced autonomous practice with practical guidance on supervision governance and career progression Perfect for advanced practitioners advanced practice students or apprentices aspiring mental health specialists clinical leaders educators and healthcare organisations implementing advanced practice roles The Advanced Practitioner in Mental Health offers the knowledge skills and confidence needed to deliver and future proof exceptional mental health care
