Social Identity In Early Medieval Britain:

Social Identity in Early Medieval Britain William O. Frazer, Andrew Tyrell, 2001-01-01 Social identity is a concept of increasing importance in the social sciences Here the concept is applied to the often atheoretical realm of medieval studies Each contributor focuses on a particular topic of early medieval identity ethnicity national identity social location subjectivity personhood political organization kinship the body gender age proximity regionality memory and ideological systems The result is a pioneering vision of medieval social identity and a challenge to some of the received general wisdoms about this period

Social Identity in Early Medieval Britain William O. Frazer, Andrew Tyrell, 2000-09-13 This volume theorises early medieval studies in order to better understand early medieval social life and its relation to modern nationalism and ethnicity

Ethnic Identity and the Archaeology of the aduentus Saxonum James M. Harland, 2025-10-01 For centuries archaeologists have excavated the soils of Britain to uncover finds from the early medieval past These finds have been used to reconstruct the alleged communities migration patterns and expressions of identity of coherent groups who can be regarded as ethnic Anglo Saxons Even in the modern day when social constructionism has been largely accepted by scholars this paradigm still persists This book challenges the ethnic paradigm As the first historiographical study of approaches to ethnic identity in modern Anglo Saxon archaeology it reveals these approaches to be incompatible with current scholarly understandings of ethnicity Drawing upon post structuralist approaches to self and community it highlights the empirical difficulties the archaeology of ethnicity in early medieval Britain faces and proposes steps toward an alternative understanding of the role played by the communities of lowland Britain both migrants from across the North Sea and those already present in transforming the Roman world

Heaven and Earth in Anglo-Saxon England Helen Foxhall Forbes, 2016-04-22 Christian theology and religious belief were crucially important to Anglo Saxon society and are manifest in the surviving textual visual and material evidence This is the first full length study investigating how Christian theology and religious beliefs permeated society and underpinned social values in early medieval England The influence of the early medieval Church as an institution is widely acknowledged but Christian theology itself is generally considered to have been accessible only to a small educated elite This book shows that theology had a much greater and more significant impact than has been recognised An examination of theology in its social context and how it was bound up with local authorities and powers reveals a much more subtle interpretation of secular processes and shows how theological debate affected the ways that religious and lay individuals lived and died This was not a one way flow however this book also examines how social and cultural practices and interests affected the development of theology in Anglo Saxon England and how popular belief interacted with literary and academic traditions Through case studies this book explores how theological debate and discussion affected the personal perspectives of Christian Anglo Saxons including where possible those who could not read In all of these it is clear that theology was not detached from society or from the experiences of lay people but formed an

essential constituent part **Britons and Anglo-Saxons** Thomas Green,2012 Britons and Anglo Saxons offers an interdisciplinary approach to the history of the Lincoln region in the post Roman period drawing together a wide range of sources In particular it indicates that a British polity named Lind s was based at Lincoln into the sixth century and that the seventh century Anglo Saxon kingdom of Lindsey Lindissi had an intimate connection to this British political unit The picture that emerges is also of importance nationally helping to answer key questions regarding the nature and extent of Anglian British interaction and the origins of Anglo Saxon kingdoms *Britons and Anglo-Saxons: Lincolnshire AD 400-650 (Second Edition)* Caitlin Green,2020-12-01 Britons and Anglo Saxons offers an interdisciplinary approach to the history of the Lincoln region in the post Roman period It is argued that by using all of the available evidence together significant advances can be made in our understanding of what occurred In particular this approach indicates that a British polity named Lindes was based at Lincoln into the sixth century and that the seventh century Anglo Saxon kingdom of Lindsey Old English Lindissi had an intimate connection with this British political unit The picture that emerges is arguably of importance not only from the perspective of the history of the Lincoln region but also nationally helping to answer key questions regarding the origins of Anglo Saxon kingdoms the nature and extent of Anglian British interaction in the core areas of Anglo Saxon immigration and the conquest and settlement of Northumbria This second edition of Britons and Anglo Saxons includes a new introduction discussing recent research into the late and post Roman Lincoln region **Dying and Death in Later Anglo-Saxon England** Victoria Thompson,Victoria M. Whitworth,2004 Pre Conquest attitudes towards the dying and the dead have major implications for every aspect of culture society and religion of the Anglo Saxon period but death bed and funerary practices have been comparatively and unjustly neglected by historical scholarship In her wide ranging analysis Dr Thompson examines such practices in the context of confessional and penitential literature wills poetry chronicles and homilies to show that complex and ambiguous ideas about death were current at all levels of Anglo Saxon society Her study also takes in grave monuments showing in particular how the Anglo Scandinavian sculpture of the ninth to the eleventh centuries may indicate not only the status but also the religious and cultural alignment of those who commissioned and made them Victoria Thompson is Lecturer in the Centre for Nordic Studies at the University of the Highlands and Islands

Feasting the Dead Christina Lee,2007 Anglo Saxons were not only frequently buried with material artefacts ranging from pots to clothing to jewellery they were also often buried with items of food the funeral ritual itself was sometimes marked by feasting even at the graveside Christina Lee examines the place of food and feasting in funeral rituals from the earliest period to the eleventh century considering the changes and transformations that occurred during this time She draws on a wide range of sources from archaeological evidence to the existing texts she is concerned particularly to look at representations of funeral feasting and how it functioned as a tool for memory shedding light on the relationship between the living and the dead Prov de l editor **Viking Kings of Britain and Ireland** Clare Downham,2007 Vikings plagued the

coasts of Ireland and Britain in the 790s AD Over time their raids became more intense and by the mid 9th century Vikings had established a number of settlements in Ireland and Britain and had become heavily involved with local politics A particularly successful Viking leader named varr campaigned on both sides of the Irish Sea in the 860s His descendants dominated the major seaports of Ireland and challenged the power of kings in Britain during the late 9th and 10th centuries In 1014 the battle of Clontarf marked a famous stage in the decline of Viking power in Ireland while the conquest of England in 1013 by the Danish king Sveinn Forkbeard marked a watershed in the history of Vikings in Britain The descendants of varr continued to play a significant role in the history of Dublin and the Hebrides until the 12th century but they did not threaten to overwhelm the major kingships of Britain or Ireland in this later period as they had done before This book provides a political analysis of the deeds of varr s family from their first appearance in Insular records down to the year 1014 Such an account is necessary in light of the flurry of new work that has been done in other areas of Viking Studies Recent theoretical approaches to the subject have raised many interesting questions regarding identity material culture and structures of authority Archaeological finds and excavations have also offered potentially radical insights into Viking settlement and society In line with these developments Clare Downham provides a reconsideration of events based on contemporary written accounts

Current contents Arts and Humanities ,2002 Britons in Anglo-Saxon England N. J. Higham,2007 The question of the British presence in Anglo Saxon England readdressed by archaeologists historians linguists and place name specialists The number of native Britons and their role in Anglo Saxon England has been hotly debated for generations the English were seen as Germanic in the nineteenth century but the twentieth saw a reinvention of the German past Today the scholarly community is as deeply divided as ever on the issue place name specialists have consistently preferred minimalist interpretations privileging migration from Germany while other disciplinary groups have been less united in their views with many archaeologists and historians viewing the British presence potentially at least as numerically significant or even dominant The papers collected here seek to shed new light on this complex issue by bringing together contributions from different disciplinary specialists and exploring the interfaces between various categories of knowledge about the past They assemble both a substantial body of evidence concerning the presence of Britons and offer a variety of approaches to the central issues of the scale of that presence and its significance across the seven centuries of Anglo Saxon England NICK HIGHAM is Professor of Early Medieval and Landscape History at the University of Manchester Contributors RICHARD COATES MARTIN GRIMMER HEINRICH HARKE NICK HIGHAM CATHERINE HILLS LLOYD LAING C P LEWIS GALE R OWEN CROCKER O J PADEL DUNCANPROBERT PETER SCHRIJVER DAVID THORNTON HILDEGARD L C TRISTRAM DAMIAN TYLER HOWARD WILLIAMS ALEX WOOLF
