Contemporary Readings in Social Problems Anna Leon-Guerrero, 2008-11-21 Companion reader to Anna Leon Guerrero's *Social Problems* 2nd Edition

Social Problems Joel M. Charon, 2002 A unique and groundbreaking collection of 58 articles organized in 13 thematic sections that takes a structural conflict approach yet lets the voices of those impacted by social problems be heard. The articles are a mix of classic and contemporary readings that cover a wide range of issues in the United States and the world. The introductory article written by the author focuses on four questions that students are urged to apply throughout the reader: What is the problem? What makes the problem a social problem? What causes the problem? What can be done? This Four Questions approach gives students a consistent sociological framework within which to analyze social problems. The articles have been painstakingly selected to hold student interest, highlight contemporary social problems, and help professors show students how to think sociologically about the social problems around us.

Seeing Social Problems Brandon Lang, Molly Monahan Lang, 2019-12-13 *Seeing Social Problems: Readings on Contemporary Issues in the United States* provides students with engaging, thought-provoking articles that examine a wide array of current social issues, the types of behaviors that perpetuate such problems, and how these issues affect the daily lives of Americans. Students are invited to critically consider how key issues have evolved and changed over time and to devise new ways for society to improve both as people and as a nation. The reader is divided into eight sections. Opening sections address socioeconomic inequality and poverty, racial and ethnic inequality, gender inequality, and homophobia and crime. Later sections explore social problems related to medicine and health, families, education, and the environment. The revised first edition features up-to-date information on several important issues, including race, gender, crime, health care, drug abuse, and pollution. Recent developments related to the Black Lives Matter and MeToo movements, Obamacare, and environmental justice are addressed. A new reading concerning the American opioid crisis has also been added. Developed to inspire critical thought and a greater understanding of contemporary issues, *Seeing Social Problems* is an ideal resource for courses in sociology.

Brandon Lang earned his Ph.D. in sociology at North Carolina State University. He is an associate professor in the Department of Sociology, Social Work, and Criminal Justice at Bloomsbury University. Dr. Lang's areas of interest include the sociology of sports and community, public and environmental sociology. His writing has appeared in numerous journals, including *Culture and Agriculture*, *Technology in Society*, and *Journal of Environmental Education*. Dr. Lang is a member of the International Sociology of Sport Association and the Eastern Sociological Society.
