Gibson, 1984 This guide arranges information on trematode parasites of Canadian fishes by subclass Aspidogastrea and Digenea order superfamily family subfamily and genera No descriptions are included for individual species because of the large number of taxa involved but illustrations of members of each genus are provided Data supplied in the guide include scientific name synonyms the position or organ in the fish where the parasite has been reported hosts distribution in Canadian waters authors responsible for the published records of a particular parasite and comments on the systematics nomenclature records or other aspects of the biology of the parasite Diagnoses are presented for all taxa down to generic level and keys are included down to the species level Mask of the Parasite Cynthia Damon, 2015-12-10 When Romans applied the term parasite to contemporaries in dependent circumstances or clients they were evoking one of the stock characters of ancient Greek comedy In the Roman world the parasite was moved out of his native genre into the literatures of invective and social criticism where his Greek origins made him a uniquely useful transmitter of Roman perceptions Whenever the figure of the parasite is used to mask a person in Roman society we know that an effort of interpretation is underway The fit between the mask and its wearer is in the eyes of the beholder and in Rome the mask seemed to fit people in many different situations entrepreneurs tax farmers lawyers female companions philosophers and poets In *The Mask of the Parasite* Cynthia Damon maintains that the parasite of Latin literature is a negative reflection of the clients In Part One she assembles a composite picture of the comic parasite using as evidence fragments of Greek comedy works from Greek writers of the imperial period whose works reflect the comic tradition and the ten complete plays of Roman comedy in which a parasite appears In parts two and three she examines the ways in which Cicero and the satirists use the figure of the parasite Cicero in belittling his opponents in court Horace and Martial in creating a negative foil for the poeta cliens Juvenal in painting contemporary patron client relationships as morally and spiritually bankrupt *The Mask of the Parasite* is a fascinating study of the intersection of literature and society in ancient Rome However neither the parasite nor patronage is confined to the Roman world Students of classical studies as well as students of literature and cultural studies will find this to be a work of utmost importance in understanding these complex issues of human interaction **The Parasite-Stress Theory of Values and Sociality** Randy Thornhill, Corey L. Fincher, 2014-07-17 This book develops and tests an ecological and evolutionary theory of the causes of human values the core beliefs that guide people's cognition and behavior and their variation across time and space around the world We call this theory the parasite stress theory of values or the parasite stress theory of sociality The evidence we present in our book indicates that both a wide span of human affairs and major aspects of human cultural diversity can be understood in light of

variable parasite infectious disease stress and the range of value systems evoked by variable parasite stress The same evidence supports the hypothesis that people have psychological adaptations that function to adopt values dependent upon local infectious disease adversity The authors have identified key variables variation in infectious disease adversity and in the core values it evokes for understanding these topics and in novel and encompassing ways Although the human species is the focus in the book evidence presented in the book shows that the parasite stress theory of sociality informs other topics in ecology and evolutionary biology such as variable family organization and speciation processes and biological diversity in general in non human animals
