The Outer Limits A Feasibility Study:

A Feasibility Study Joseph Stefano, 2022-09-30 This book includes the teleplay from the 1963 ABC television show The Outer Limits episode A Feasibility Study The teleplay was written by Joseph Stefano **The Outer Limits** Joanne Morreale, 2022-04-05 Provides a history and criticism of an important disrupting force in early science fiction television programming In this TV Milestone author Joanne Morreale highlights the differences of The Outer Limits ABC 1963-65 from typical programs on the air in the 1960s Morreale argues that the show provides insight into changes in the television industry as writers turned to genre fiction in this case a hybrid of science fiction and horror to provide veiled social commentary The show illustrates the tension between networks who wanted mainstream entertainment and the independent writer producers Leslie Stevens and Joseph Stefano who wanted to use the medium to challenge viewers In five chapters The Outer Limits makes a case for the show's deployment of gothic melodrama and science fiction tropes unique televisual characteristics and creative adaptation of many cultural sources to interrogate the relationship between humans and technology in a way that continues to influence contemporary debate in such shows as Star Trek The X Files and Black Mirror Underlying the arguments is the eerie notion of The Outer Limits as a disruptive force on television at the time purposely making audiences uncomfortable For example in its iconic opening credit sequence a disembodied Control Voice claims to be taking over the television as images mimic signal interference Other themes convey Cold War paranoia ambivalence about the Kennedy era New Frontier and anxiety about the burgeoning military industrial governmental complex The book points out that The Outer Limits presaged what came to be known as quality television While most episodes followed the lowbrow tradition of televised science fiction by adapting previously published stories and films the series elevated the genre by rearticulating it through themes and images drawn from myth literature and the art film The Outer Limits is lucid yet accessible well researched and argued with enlightening discussions of specific episodes even as it gives attention to broader television history and theory It will be of special interest to scholars and students of television and media studies as well as fans of science fiction **An Exploration of Space 1999 Through the Lens of Video Games:**

Balor, 2019-07-02 This book contains transcripts from Online Alpha discussions where the video game PAYNE 1999 game theory and game study theories are used for analysing and commenting on problems of conflict and cooperation in SPACE 1999 The discussions build on more than a decade of conversations and debate about PAYNE 1999 and the aim of the book is to put the various threads together while also developing new ideas and providing direction for further investigations The book has been developed on an idealistic basis and it is sold at the lowest price the publisher was willing to accept A free e-book version can be downloaded at www.lulu.com [Bowker's Complete Video Directory, 1999](#), 1999

Gender in Science Fiction Films, 1964-1979 Bonnie Noonan, 2015-06-15 The 1950s era of science fiction film effectively ended when space flight became a reality with the first manned orbit of Earth in 1962 As the genre's wildly

speculative depictions of science and technology gave way to more reality based representations relations between male and female characters reflected the changing political and social climates of the era Drawing on critical analyses film reviews and cultural commentaries this book examines the development of science fiction film and its representations of gender from the groundbreaking films of 1968 including 2001 A Space Odyssey Barbarella and Planet of the Apes through its often overlooked Middle Period which includes such films as Colossus The Forbin Project 1970 The Stepford Wives 1975 and A Boy and His Dog 1975 The author examines intersections of gender and race in The Omega Man 1971 and Frogs 1972 gender and dystopia in Soylent Green 1973 and Logan s Run 1976 and gender and computers in Demon Seed 1977 The big budget films of the late 1970s Close Encounters of the Third Kind Alien and Star Wars are also discussed
