Old-Time Music Makers of New York State Simon J. Bronner, 1988-01-01 Ask an old timer what life was like in rural upstate New York during the nineteenth and early twentieth centuries and you will hear about the dances and bees that brought villagers and farmers together You will hear of favorite fiddlers who held center stage with dance tunes taken from early British and American sources You will hear of old time music and its significance to a people making the transition from a rural agricultural life to an urban industrial one Old Time Music Makers of New York State is the first book published on this rich legacy of traditional Anglo American music and dance It traces the development of old time music beginning with its movement into New York State from New England in the early nineteenth century and to its combination with commercial country music in the twentieth century Exploring the regional character of the music and its meaning to the people who enjoy it Bronner introduces memorable figures from the major periods in the development of old time music and he places their stories their lives and their music in the context of the region's cultural and historical changes This is much more than a regional study however Bronner brings to the fore issues of national scope and interest He discusses the relationship of old time music to the commercial country music with which it has been closely aligned and he challenges the prevailing wisdom that the origins of country music are in the South Musician fan folklorist and historian alike will benefit from and enjoy this book The many musical transcriptions annotations photographs and appendixes provide a valuable reference to be used again and again *The Musical Times and Singing-class Circular*, 1915 **Wireless World**, 1923 Signal School Pamphlet, ...
