Contemporary hand made turkish carpets Ugur Ayyildiz,1983 Veiled Employment Roksana Bahramitash,Hadi Salehi Esfahani,2011-04-15 The popularity of neoliberal economic policies is based in part on the argument that the liberalization of markets promotes growth and increases employment opportunities for women Although the latest research bears this out it also presents a grim portrait of the state of women s employment Approximately 70 percent of those living on less than a dollar a day are women or girls In Veiled Employment the contributors examine these stark disparities focusing on the evolving role of women s employment in Iran Based on empirical field research in Iran their essays document the accelerating trend in the size and diversity of women s employment since the 1990s and explore the impact of various governmental policies on women The volume analyzes such issues as the effect of global trade on female employment women s contributions to the informal work sector and Iranian female migrant workers in the United States Rejecting the commonly held view that centers on Islam as the primary cause of women s status in the Muslim world the authors emphasize the role of national and international political economies Drawing on postcolonial feminist theory they reveal the ways in which women in Iran have resisted and challenged Islamism revealing them as agents of social transformation rather than as victims of religious fundamentalism
