Turner And The Scientists:

Turner and the Scientists James Hamilton, Tate Gallery, 1998 Published to accompany an exhibition at the Tate Gallery from 3rd March to 21st June 1998 this is an account of J M W Turner s social and artistic life which offers insights into the extent to which 19th century art and science were intertwined

Portraits of Pioneers in Psychology Donald A. Dewsbury, Ludy T. Benjamin, Jr., Michael Wertheimer, 2014-06-03 This sixth book in the Portraits of Pioneers in Psychology Series preserves the diversity that has characterized earlier volumes as it brings to life psychologists who have made substantial contributions to the field of the history of psychology These chapters illustrate the pioneering endeavors of such significant figures and are written in a lively engaging style by authors who themselves have achieved a reputation as excellent scholars in the history of psychology Several of the chapters are based on the author s personal acquaintance with a pioneer and new previously unavailable information about these luminaries is presented in this volume Each of these volumes provides glimpses into the personal and scholarly lives of 20 giants in the history of psychology Prominent scholars provide chapters on a pioneer who made important contributions in their own area of expertise A special section in each volume provides portraits of the editors and authors containing interesting information about the relationship between the pioneers and the psychologists who describe them Utilizing an informal personal sometimes humorous style of writing the books will appeal to students and instructors interested in the history of psychology Each of the six volumes in this series contains different profiles thereby bringing more than 120 of the pioneers in psychology more vividly to life

SEVEN BLACK AMERICAN SCIENTISTS ROBERT C. HAYDEN,1970 **For the Dignity of Humanity** United States. National Oceanic and Atmospheric Administration,1979 *Journal of the Society of Glass Technology* Society of Glass Technology,1930 **The Christian Science Journal** ,1899 *General Catalogue of Officers and Students ... 1838-1916* Monticello Seminary, Godfrey, Ill,1916 **Sir William Turner, K.C.B., F.R.S., professor of anatomy and principal and vice-chancellor of the University of Edinburgh** Arthur Logan Turner,1919 *The British National Bibliography* Arthur James Wells,1999 American Turner ,1925 *The Fix* Michael Massing,1998

In America s 25 year war against drugs only one national policy achieved some success That was the Nixon Administration s program for treating heroin addicts which was dismantled by the Reagan Administration In *The Fix* Michael Massing exposes the political and ideological narrow mindedness that have made national drug policy a failure and demonstrates convincingly why we should reinstate the policy that worked Drawing on scores of interviews with federal officials charged with directing the drug war and on years of on the street reporting Massing offers a fresh new way of looking at the drug problem The heart of that problem lies not with recreational users of marijuana as many politicians and journalists maintain but with hard core users of heroin crack and cocaine Numbering about three million these addicts are concentrated in the nation s inner cities and account for most of the demand for drugs and most of the crime associated with their use Given the number of addicts and the tenacity of their habit putting them in jail is not an affordable or effective longterm solution And given the tendency of addicts to engage in destructive behavior legalization would simply encourage more of it A far more effective policy Massing argues would be to recognize that drug use is a public health problem and to use the government s resources to create a national network of clinics offering addicts treatment on demand Massing shows that drug treatment works by describing the success that street workers have had in reaching out to addicts in Spanish Harlem and placing them in the few treatment programs now available Further evidence that treatment can reduce the demandfor drugs comes from the Nixon years Confronted with a raging heroin epidemic in the early 1970s President Nixon responded by allocating hundreds of millions of dollars to set up a nationwide network of methadone clinics and other drug treatment facilities The program was a striking success and if revived today it could go a long way toward reducing the rate of drug related crime in the United States Among Massing s findings Even as Nancy Reagan was traveling around the country urging people to just say no to drugs her husband was sharply cutting the federal drug treatment budget When the crack epidemic hit in the mid 1980s those treatment facilities that remained were completely overwhelmed and many addicts who wanted help were forced back onto the street The Reagan Administration s policies made the crack epidemic far worse than it need have been The greatest influence on drug policy in the last twenty years has been the parent movement a little known network of strong willed mothers and fathers that sprang up in suburbs across the country in the late 1970s Panicked over their kids use of marijuana these parents pioneered such concepts as zero

tolerance and a drug free America while at the same time stymieing all efforts to help inner city addictsThe only federal official in recent years to make a genuine bid to revive the Nixon model and treat addicts in a humane fashion was Lee Brown the former New York City police chief who became President Clinton s first drug czar But Clinton despite promises to support Brown eventually abandoned him out of fear that he would look soft on crime Clinton s drug policy is no less hawkish than that of his Republicanpredecessors and every bit as ineffective Instead of relying on foreign governments to hunt down drug lords or on building more prisons to warehouse addicts approaches that are expensive wasteful and ineffective we should restore our once and only successful program of treatment for hard core addicts It s our only hope for winning the war against drugs
