Politics in the Bible Paul R. Abramson,2011-12-31 The Bible is fundamental to Western culture Political philosophers from Hobbes Locke Montesquieu and Rousseau to modern political theorists such as George H Sabine Leo Strauss and Sheldon S Wolin have drawn upon biblical examples American political leaders such as Thomas Paine Abraham Lincoln and William Jennings Bryan all drew heavily upon the Bible Today most contemporary politicians display less familiarity with Scripture although many proudly proclaim themselves to be born again Christians Politics in the Bible has a simple goal to help readers to think critically about how the Bible illuminates understanding of justice leadership and politics For a political scientist there are great advantages to studying the Bible Students of the Bible have short texts to analyze but they have a history of two thousand years of Jewish and Christian scholarly discussion In that tradition Paul R Abramson analyzes stories drawn from eighteen of the thirty nine books of the Hebrew Bible and fifteen of the twenty seven books of the New Testament Abramson argues that the Bible is a book that should be read even by those who do not believe it has any transcendent significance One can choose to read it as the revealed word of God as a source of Western morality as a compilation of interesting stories poetry and history or as a work of great literature Although this book discusses selected stories that have political implications it also considers parts that have literary merit This unusual volume may stimulate new thinking about the Bible as a source of insight into political ideas *Companion Volume to the Analytical-Literal Translation: Third Edition* Gary F. Zeolla,2007-09-18 This book is a companion to the Analytical Literal Translation Third Edition ALT3 It will help the reader to understand the reasons for the unique translations often seen in the ALT This Companion Volume is divided into four sections

The first section provides background information for the ALT answers frequently asked questions about the ALT and overviews the ALT's unique features. The second section consists of Glossary and Translation Notes which explain the reasons for how important words are translated in the ALT. The third section is an eight part Grammatical Renderings section. This section explains the reasons for the unique translation of Greek tenses seen in the ALT. This section is detailed enough to be used as a primer on Greek grammar. The fourth section contains lists of Significant Textual Variants and Alternate Byzantine Text Readings. These lists will be of great value to the person interested in studying the issue of textual variants.

Life in Christ William Robert West, 2015-09-29 What do you believe about souls? There are many very different doctrines taught in the world today concerning souls that are believed to be in all humans. By most a soul is believed to be something that is wholly apart from the person a soul is in that a soul is something that is that is believed to be complete in its self without the person it will live after the person it is in is dead it is believed that a soul will exist forever without the person it will never be dead therefore a soul cannot be resurrected from the dead. It is believed that a soul must live someplace forever and it will live either in Heaven or Hell even if there is no resurrection. The doctrine of unconditional immortality of a deathless soul being in a person and that soul leaving that person at the death of the person makes it impossible for Christ to have give His life to save that soul from death if a soul had immortality it would already have life and could never not have life all Christ could do is give it a reward or punish it.
