Upsidedown Tree:

The Upside Down Tree Richard D. Connerney,2009 India s future will be determined not only by economic development but also by a dynamic traditional culture that continues to develop along its own lines sometimes in concert and sometimes in conflict with material enrichment India develops not as one writer has suggested in spite of the gods Rather the seed for the creation and the fuel for the sustenance of India s economic boom lay in its traditions and I will argue the animating spirit of its future lies there as well I have neither the expertise nor the access to operate as a political correspondent nor the desire to posture as a political pundit During eighteen years of research however I have seen what I perceived as a pervasive misrepresentation of recent developments in Indian politics More specifically a number of recent books consistently paint the Hindu right wing in India as essentially fascist or theocratic My observations show that these claims are untenable and misrepresent a positive development in the history of Indian democracy To think clearly about the changes in today s India we require a new model the bi directional banyan tree a symbol borrowed ironically from ancient Sanskrit verses Pindar claimed Custom is King of all and this serves as a succinct expression of the central thesis of this book Publisher s website

Seeds of Virtue and Knowledge Maryanne Cline Horowitz,1998 In this wide ranging and thought provoking study Maryanne Cline Horowitz explores the image and idea of the human mind as a garden under the proper educational cultivation the mind may nourish seeds of virtue and knowledge into the full flowering of human wisdom This copiously illustrated investigation begins by examining the intellectual world of the Stoics who originated the phrases seeds of virtue and seeds of knowledge Tracing the interrelated history of the Stoic cluster of epistemological images for natural law within

humanity reason common notions sparks and seeds Horowitz presents the distinctive versions within the competing movements of Hellenistic Judaism and early Christianity Augustinian and Thomist theologies Christian mysticism and Kabbalah and Erasmian Catholicism and the Lutheran Reformation She demonstrates how the Ciceronian and Senecan analogies between horticulture and culture basic to Italian Renaissance humanists artists and neo Platonists influence the emergence of emblems and essays among participants in the Northern Renaissance neo Stoic movement The Stoic metaphor is still visible today in ecumenical movements that use vegetative language to encourage the growth of shared values and to promote civic virtues organizations disseminate information on nipping bad habits in the bud and on turning a new leaf The author s evidence of illustrated pages from medieval Renaissance and Enlightenment texts will stimulate contemporary readers to evaluate her discovery of the premodern scientific paradigm that the mind develops like a plant The Baobabs: Pachycauls of Africa, Madagascar and Australia G.E.
