A Working Theory of Love Scott Hutchins, 2013-08-27 An extraordinary debut novel that hits that sweet spot where humor and melancholy comfortably coexist Entertainment Weekly Before his brief marriage imploded Neill Bassett took a job feeding data into what could be the world's first sentient computer Only his attempt to give it language through the journals his father left behind after committing suicide has unexpected consequences Amidst this turmoil Neill meets Rachel a naive young woman escaping a troubled past and finds himself unexpectedly drawn to her and the possibilities she holds But as everything he thought about the past becomes uncertain every move forward feels impossible *Teaching Students About the World of Work* Nancy Hoffman, Michael Lawrence Collins, 2020-07-22 Teaching Students About the World of Work argues that educational institutions especially two year and four year public institutions serving low income students need to make the topic of employment a central element in their educational offerings Indeed the book demonstrates that a far greater emphasis on teaching students about the work world will be necessary if colleges are to give disadvantaged students a realistic chance for professional and economic success The recommendation is a reconfiguration of postsecondary education that represents a paradigm shift in career preparation and learning Editors Nancy Hoffman and Michael Lawrence Collins and their authors provide a rich and comprehensive view of both today's work world and the challenges facing many young people who are determined to find a place within it The book offers detailed accounts of how several community colleges have put employment at the center of the curriculum provides practical insights into the twenty first century labor market and ways to improve the choices and outcomes for low income job seekers and explores the daunting structural barriers to securing successful and satisfying employment Throughout all its chapters the book highlights increasing inequalities in both opportunities and outcomes within our society In order to redress those disparities it argues postsecondary educators will need to offer enhanced insights and sophistication to disadvantaged young people preparing to enter and navigate the work world An urgent but unfailingly reasonable book for our times Teaching Students About the World of Work will be required reading for educators determined to create practical opportunities for young people in search of good employment and better lives *The Theory and Practice of Working Plans (forest Organization)* Arthur Bernhard Recknagel, 1913 *The Biblical World* William Rainey Harper, Ernest DeWitt Burton, Shailer Mathews, 1916 Books for New Testament study By Clyde Weber Votaw v 26 p 271 320 v 37 p 289 352 *The Theory of the Trace: Being a Discussion of the Principles of Location* Wilhelm Launhardt, 1900 Industrial Management John R.
