Working Women For Freedom:

Working Women for Freedom Angela Terrano, Marie Dignan, Mary Holmes, 1976 **Amartya Sen's Work and Ideas**
Bina Agarwal, Jane Humphries, Ingrid Robeyns, 2013-09-13 This unique volume is the first to examine Nobel Laureate Amartya Sen's ideas through the lens of gender. His humanitarian approach to economics has been crucial to the development of several aspects of feminist economics and gender analysis. This book outlines the range and usefulness of his work for gender analysis while also exploring some of its silences and implicit assumptions. The result is a collection of groundbreaking and insightful essays which cover major topics in Sen's work such as the capability approach, justice, freedom, social choice, agency, missing women, and development and well-being. Perspectives have been drawn from both developing and developed countries, with most of the authors applying Sen's concepts to cultural, geographic, and historical contexts which differ from his original applications. Significant highlights include a wide-ranging conversation between the book's editors and Sen on many aspects of his work and an essay by Sen himself on why he is disinclined to provide a definitive list of capabilities. These essays were previously published in *Feminist Economics*.

Freedom Inc.: Gendered Capitalism in New Indian Literature and Culture Mukti Lakhi Mangharam, 2023-06-15 While globalization is often credited with the eradication of traditional constraints tied to gender and caste, in reality the opening up of the Indian economy in the 1990s has led to a decline in freedom for many female Dalit and lower class Indians. This book explores the contraction of what it means to be free in post-liberalization India, examining how global capitalism has exacerbated existing inequalities based on traditional femininities and masculinities while also creating new hierarchies. Freedom Inc. argues that post-1990s literature and culture frequently represents and reinforces the equation of free market capitalism with individual freedom within the new idea of India. However, many texts often also challenge this logic by pointing to more expansive horizons of autonomy for the gendered self. Through readings of texts as diverse as Dalit women's life writing, pop fiction, realist novels, self-help, regional film, and Netflix TV shows, Mangharam investigates how notions like free trade, entrepreneurship, and self-help are experienced, embodied, and challenged by disadvantaged peoples and by women differently than men. In the process, Freedom Inc. explores how different literary forms illuminate alternative and buried pathways to fuller freedoms.

New Outlook, 1907 *The Kurdish Women's Freedom Movement* Isabel Käser, 2021-08-26 Amidst ongoing wars and insecurities, female fighters, politicians, and activists of the Kurdish Freedom Movement are building a new political system that centres gender equality. Since the Rojava Revolution, the international focus has been especially on female fighters, a gaze that has often been essentialising and objectifying, brushing over a much more complex history of violence and resistance. Going beyond Orientalist tropes of the female freedom fighter and the movement's own narrative of the free woman, Isabel Käser looks at personal trajectories and everyday processes of becoming a militant in this movement. Based on in-depth ethnographic research in Turkey and Iraqi Kurdistan, with women politicians, martyr mothers, and female fighters, she looks at how norms around gender and sexuality

have been rewritten and how new meanings and practices have been assigned to women in the quest for Kurdish self determination Her book complicates prevailing notions of gender and war and creates a more nuanced understanding of the everyday embodied epistemologies of violence conflict and resistance
