Works by Lyons Israel Ellis Gray:

Lyons Israel Ellis Gray Neave Brown, Lyons Israel Ellis Gray, 1988 The work of Lyons Israel Ellis Gray was seen in the 1950s and 1960s as epitomizing a new optimistic and frankly modern approach to architecture known as brutalist The practice was responsible for the construction of some 25 schools institutes of higher education hospitals and housing projects and served as something of a finishing school for a generation of British architects including James Stirling James Gowan and Neave Brown *The Alienation Effect* Owen Hatherley, 2025-03-27 Dazzling The remarkable story of how British culture was transformed by migr architects filmmakers and writers Guardian Britain Made in Europe In the 1930s tens of thousands of central Europeans sought sanctuary from fascism in Britain While the rainy seemingly quaint island they discovered on arrival was a far cry from the dynamism of Weimar Berlin or Red Vienna it was safe and it became home Yet the migr s had not arrived alone they brought with them new and radical ideas and as they began to rebuild their lives and livelihoods they transformed the face of Britain forever Drawing on an immense cast of artists and intellectuals including celebrated figures like Erno Goldfinger forgotten luminaries like Ruth Glass and a host of larger than life visionaries and charlatans the historian Owen Hatherley argues that in the resulting clash between European modernism and British moderation our imaginations were fundamentally realigned and remade for the better In casting what Bertolt Brecht called in a new German word a *Verfremdungseffekt* an alienation effect on Britain the aliens made us all a little bit alien too Provocative entertaining and meticulously researched *The Alienation Effect* opens our eyes to the influence of the migr s all around us many of our most quintessentially British icons are the product of this culture clash and entreats us to remember and renew our proud national tradition of asylum **Bibliographic Guide to Art and Architecture** New York Public Library. Art and Architecture Division, 1975 **Makers of 20th-Century Modern Architecture** Donald Leslie Johnson, Donald Langmead, 2013-05-13 *Makers of 20th Century Modern Architecture* is an indispensable reference book for the scholar student architect or layman interested in the architects who initiated developed or advanced modern architecture The book is amply illustrated and features the most prominent and influential people in 20th century modernist architecture including Wright Eisenman Mies van der Rohe and Kahn It describes the milieu in which they practiced their art and directs readers to information on the life and creative activities of these founding architects and their disciples The profiles of individual architects include critical analysis of their major buildings and projects Each profile is completed by a comprehensive bibliography **AA Files** , 1998 **Architecture** Jonathan Hill, 2014-04-04 The aim of this book is to expand the subject and matter of architecture and to explore their interdependence There are now many architectures This book acknowledges architecture far beyond the familiar boundaries of the discipline and reassesses the object at its centre the building Architectural matter is not always physical or building fabric It is whatever architecture is made of whether words bricks blood cells sounds or pixels The fifteen chapters are divided into three sections on buildings spaces and bodies which each

deal with a particular understanding of architecture and architectural matter The richness and diversity of subjects and materials discussed in this book locates architecture firmly in the world as a whole not just the domain of architects In stating that architecture is far more than the work of architects this book aims not to deny the importance of architects in the production of architecture but to see their role in more balanced terms and to acknowledge other architectural producers Architecture can for example be found in the incisions of a surgeon the instructions of a choreographer or the movements of a user Architecture can be made of anything and by anyone *Contemporary Architects* Muriel Emanuel,2016-01-23

Architecture Series: Bibliography,1989 **The Illustrated Encyclopedia of Architects and Architecture** Dennis Sharp,1991 Design Book Review,1988 The Idea of the City Architectural Association (Great Britain),1996 **Design & Applied Arts Index**,1989 **Journal**,1988 *New Publications for Architecture Libraries*,1989 **The Architects' Journal**,1990 **James Stirling** James Frazer Stirling,2010 Previously unpublished writings by and about James Stirling 1924 1992 arguably the most influential and controversial post war British architect *Blueprint*,1988 *Contemporary Architects* Ann Lee Morgan,Colin Naylor,1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day Editor s note **Icons of Architecture** Sabine Thiel-Siling,2005 An overview of twentieth century architecture featuring short essays on innovations in design and profiles of architects Includes photos drawings and building plans RIBA Journal Royal Institute of British Architects,1983
