

World Population Peak

The Top 10 Countries by 2100

Will the global population surpass 10 billion by the end of the century? All signs have pointed to yes—until now. Steadily rising estimates from the United Nations have typically been the status quo. However, recent research from the Institute for Health Metrics and Evaluation (IHME) suggests that the global population may actually start shrinking well before 2100. Here's another look at these complex projections.

Global Population Projections

Here's how IHME projects the most populous countries will change by 2100.

Top 10 Countries by Population

Various demographic factors, from lower fertility rates to higher life expectancies, are key reasons behind these differing estimates.
