**Measuring Innovation in OECD and Non-OECD Countries** William Blankley,2006 It is widely accepted that innovation is key to economic growth Countries where research and innovation are high on the national agenda are best suited to prosper in the knowledge based economy Conversely countries whose economies are mainly dependent on natural resources and basic industries tend to lack competitiveness and flexibility in adapting to changing global trends The Organisation for Economic Co operation and Development OECD has long been

concerned with the measurement of research and experimental development R D and innovation activities Under apartheid rule South Africa was barred from participating in OECD activities Shortly after the advent of democracy in South Africa in 1994 the then Department of Arts Culture Science and Technology now the Department of Science and Technology initiated the process of applying for observer status on the OECD Committee for Scientific and Technological Policy South Africa gained observer status in 1998 In March 2001 the Department and the OECD jointly hosted an international seminar in Pretoria on the measurement of innovation activities in OECD and non OECD countries This book is a collection of selected papers that were presented at the seminar by leading international and South African experts in innovation measurement The chapters reflect various aspects of the measurement of innovation and how these measurements are applied in different countries The volume contributes to the debate that exists between developing and developed countries on their approaches to the measurement of innovation

**The Skeptical Environmentalist** Bjørn Lomborg, 2001-08-30 The Skeptical Environmentalist challenges widely held beliefs that the environmental situation is getting worse and worse The author himself a former member of Greenpeace is critical of the way in which many environmental organisations make selective and misleading use of the scientific evidence Using the best available statistical information from internationally recognised research institutes Bjørn Lomborg systematically examines a range of major environmental problems that feature prominently in headline news across the world His arguments are presented in non technical accessible language and are carefully backed up by over 2500 footnotes allowing readers to check sources for themselves Concluding that there are more reasons for optimism than pessimism Bjørn Lomborg stresses the need for clear headed prioritisation of resources to tackle real not imagined problems The Skeptical Environmentalist offers readers a non partisan stocktaking exercise that serves as a useful corrective to the more alarmist accounts favoured by campaign groups and the media

Making Progress C. Leigh Anderson, Janet W. Looney, 2002-01-01 While a universal definition of progress has proved elusive measures of progress have been defined and grouped into the broad areas of material wealth social relations technical capacity and moral aesthetic and intellectual sensibilities However not until the Progress Project whose results are gathered here has the impact of progress on public policy in these realms been systematically explored In this volume noted scholars in economics government education technology literature culture and religion among other fields discuss the meaning and measurement of progress in their areas of specialty They assess particular policies that have either promoted or retarded progress and provide recommendations for policy processes or instruments that better reflect the nature of forward movement in the current era Making Progress is an important contribution to both the theoretical and practical literature on public policy it is a resource for scholars and students as well as a guide for policymakers analysts and advocates who help craft those policies in the name of progress

**Failed Transition, Bleak Future?** Hooman Peimani, 2002-04-30 Peimani challenges the practical indifference of many Western and non Western countries with interests in Central Asia and the Caucasus to their plight

Independence in 1991 suddenly worsened all the economic and social problems of the countries of the Caucasus Azerbaijan Armenia and Georgia and Central Asia Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan Their failure to address their numerous economic problems and to develop their economies has created a suitable ground for the rise of social and political popular dissent including ethnic conflicts in all these multi ethnic countries Concerned about the stability of their political systems their ruling elites have all opted for authoritarianism The prevailing intolerance of dissent and the suppression of opposition political parties have paved the way for the emergence of anti government extremist ideologies and political groups The domestic situation has become ripe for the rise of violent political activities and ethnic conflicts with a great possibility for their escalation to civil wars The ethnic structure of both the Caucasus and Central Asia makes their development into inter state wars a strong possibility The unsettled ethnic and territorial conflicts within and between countries which turned into wars in the early 1990s could easily re emerge There is a potential for the further escalation of military conflicts in those regions because of the intentional or unintentional intervention of Iran China Turkey Russia and the United States which have long term interests in the two regions Given the geographical characteristics of the Caucasus and Central Asia as a link between Asia and Europe war and instability in those regions could destabilize the two continents hosting six declared nuclear powers Of particular interest to scholars and other researchers involved with Eurasian Central Asian and Caucasian countries The Wellbeing of Nations , Produced in collaboration with the leading international organizations involved with sustainable development this work is a reference for development and environmental policy professionals as well as for students and scholars in environmental studies and international studies **World Development Report** World Bank Staff,1998 Annotation World Development Report 1998 1999 now in its twenty first edition focuses on the role of knowledge and information as a factor of development including the important trade offs in strategies and policies and many other challenges It examines such important questions as why have some developing countries been able to exploit the rapidly increasing stock of global knowledge more than others and what can be done to help those falling behind The Report also looks at the challenge of finding the balance between private initiative and public intervention that encourages innovation and manages attendant risks It deals with the role of international assistance and international organizations which can help develop understanding about these complex processes help to transfer lessons of development experience across countries and help finance crucial knowledge investments of importance to developing countries Known as the standard reference for international economic data the World Development Report 1998 1999 provides a set of Selected World Development Indicators as an appendix presenting social and economic statistics for more than 200 countries
