essential to combine poverty reduction with environmental protection in an integrated policy structure spanning all levels from local to global In this report the German Advisory Council on Global Change WBGU shows that global environmental policy is a prerequisite for global poverty reduction WBGU analyses the relevant policy processes and delivers recommendations charting the way forward With its interdisciplinary approach providing a complex and systematic analysis of the poverty environment nexus WBGU s latest report breaks new ground Indira Gandhi s old convenient maxim was Poverty is the biggest polluter Put forward at the 1972 UN Conference on the Human Environment in Stockholm it has been sorely misused ever since to override environmental precaution and prioritize economic development strategies instead The new WBGU report maps out a way to shape a coherent environment and development policy This report revitalizes the Rio spirit and gives it a robust scientific base Prof Dr Ernst Ulrich von Weizsäcker Member of the German Bundestag MdB

the Washington Consensus helped fill the need for an economic policy framework following the discrediting of central planning and import substitution trade strategies Latin American governments championed the Consensus in the early 1990s and the policy agenda delivered some of the things it was supposed to healthier budgets lower inflation lower external debt ratios and economic growth But unemployment rose in many countries and poverty remained widespread while the emphasis on market openness made states vulnerable to the side effects of globalization **Human Development Report** ,2002

**Making Services Work for Poor People** ,2003 Too often services fail poor people in access in quality and in affordability But the fact that there are striking examples where basic services such as water sanitation health education and electricity do work for poor people means that governments and citizens can do a better job of providing them Learning from success and understanding the sources of failure this year s World Development Report argues that services can be improved by putting poor people at the center of service provision How By enabling the poor to monitor and discipline service providers by amplifying their voice in policymaking and by strengthening the incentives for providers to serve the poor Freedom from illness and freedom from illiteracy are two of the most important ways poor people can escape from poverty To achieve these goals economic growth and financial resources are of course necessary but they are not enough The World Development Report provides a practical framework for making the services that contribute to human development work for poor people With this framework citizens governments and donors can take action and accelerate progress toward the common objective of poverty reduction as specified in the Millennium Development Goals *The Stockholm Journal of East Asian Studies* ,2006

**The Economist** ,1906 Trends and Challenges in Public Administration Reform in Asia and the Pacific ,2005 *Encyclopedia of the Global Economy: Author's note* David Edward O'Connor,2006 A collection of primary documents and statistics on the concepts people and organizations related to economic globalization from the sixteenth century to the present including the text of the North American Free Trade Agreement International Social Science Journal ,2005-06 *Gender Differences in Retirement Incentives* Jeungkun Kim,2008 The Jobs Crisis World Bank,2011

The financial crisis swiftly expanded into an economic crisis throughout America and Western Europe from where it spread to developing countries that had depended on foreign direct investment consumer and mortgage credit trade and remittances By early 2009 it was clear that this economic downturn would be more severe than any crisis since the great depression prompting some to it as the great recession Eastern European and Central Asian countries were hit particularly hard during 2009 global Gross Domestic Product GDP contracted for the first time since Second World War The financial crisis and the ensuing economic downturn the worst since the Great Depression in the 1930s went hand in hand with

tightening of credit markets bank failures firm closures and high demand for social safety nets This report The jobs crisis household and Government responses to the great recession in Eastern Europe and Central Asia brings together evidence that World Bank teams have collected on the impact of the crisis on households and families in Eastern Europe and Central Asia This report shows how the crisis was felt by Eastern European and Central Asian households Not only did unemployment rise sharply but it also lasted longer The report also shows that the pain of the recession was broader with workers taking home smaller paychecks as firms offered lower wage rates and fewer hours of work to their workers The jobs crisis finds that households used a variety of ways to cope with the crisis The jobs crisis presents an account of how governments reacted to the crisis through social policy reforms and initiatives and how such responses could be improved in the future Unemployment insurance benefits played a particularly important cushioning role but coverage of the unemployed tended to be limited

An Opportunity for a Different Peru Marcelo Giugale, Vicente Fretes Cibils, John L. Newman, 2007 For the first time in the republican history of Peru the presidential transition takes place in democracy social peace fast economic growth and favorable world markets This study provides a conceptual framework to the analysis of the country's 34 economic sectors and the two historical perspectives behind them
