philosophy and Grace theology Hick explores the validity of other religions and Christianity's place among them. Offering good reasons for why the traditional stance that Christianity is the only true religion is no longer workable, he puts forth a cogent defense of Christianity in the global context of other religions. This book is a must reading for those concerned about the uniqueness of Christianity and how it is to be interpreted theologically in today's world. *Anthology of Asian Scriptures* Robert E. Van Voorst, 2001. This reader contains some of the most notable and instructive scriptures of the major Asian religions: Hinduism, Buddhism, Jainism, Sikhism, Confucianism, Taoism, Shinto, and Zoroastrianism. It is a comprehensive and pedagogically sound presentation of the sacred literature of the Asia. A clear and consistent organization makes the text easy to use and understand. The first chapter examines the general phenomenon of scripture in the world's religions, its nature, use, and place in modern scholarship. Chapter 1 also introduces the reader to the art of reading scripture with practical suggestions, a pronunciation guide for foreign words, and other pedagogical aids. Each subsequent chapter presents the scripture of a single religion. Three or four vignettes about scripture and its usage open the chapter to draw the reader's interest and imagination. Then an introduction sets the context by explaining the overall structure, origin, development, and use of the scripture in its religion.

**Two Gates: One Wide and One Narrow: Which Do You Choose?** Michael J. Oldham, 2020-03-13. At death, everyone will face their gateway to eternity. There are just two gates, no more. One gate is wide and is the one that opens to most of mankind. The other gate is narrow and opens to God's children, born again Christians. Rev. Dr. Michael J. Oldham describes the two gates and the two destinations, Heaven and Hell, in telling detail. This book leaves no doubt as to which destination is the best choice. The most intriguing aspect of the matter is the fact that each person has the ability to make the choice. And the urgency of making that choice is now, in fact, at this very minute. This book is Dr. Oldham's fourth published book. All four are well researched and highly relevant to readers of all faiths or to those with no faith at all.

**Using Internet Primary Sources to Teach Critical Thinking Skills in History** Kathleen W. Craver, 1999-10-30. History teachers and school library media specialists will find this guide a valuable resource for creating technologically advanced, resource-based instructional units in American and World History in grades 7-12. It is filled with 150 recommended primary source Internet sites about history, ranging from ancient civilizations to 1998, and is stocked with exciting, interesting, and challenging questions designed to stimulate students' critical thinking skills. Dr. Craver, who maintains an award-winning interactive Internet database and conducts technology workshops for school library media specialists, provides an indispensable tool to enable students to make the best use of the Internet for the study of history. Each site is accompanied by a summary that describes its contents and usefulness to history teachers and school library media specialists. The questions that follow are designed specifically to stimulate critical thinking skills. Critical thinking skills are deemed essential for students if they are to succeed academically and
