Critical appraisal of the dispute settlement procedure under the World Trade Organisation Alli Hendriks, 2016-12-30
Essay from the year 2016 in the subject Politics Topic Public International Law and Human Rights grade A Macquarie University course Law language English abstract The Dispute Settlement Procedure DSP embodied in the Dispute Settlement Understanding DSU of the World Trade Organisation WTO is a highly effective mechanism to ensure disputes are resolved in a reasonable period of time However it does not satisfactorily address the needs of developing countries to access the DSP This could be reformed through financial and legal assistance for these countries In addition a more substantiated non compliance clause could assist the timely resolution of disputes so as to not disrupt the free flow of international trade in goods and services a key objective of the WTO system **Commerce Today**, 1972 **Fisheries Subsidies, Sustainable Development and the WTO** Anja von Moltke, 2014-10-14 The fisheries sector is in crisis Inappropriate subsidies to the fishing industry are a key factor responsible for worldwide fisheries depletion overcapitalization and ecosystem degradation There is an urgent need for an international mechanism to promote the appropriate restructuring of fisheries subsidies in order to create a more sustainable industry In recent years the leading international forum charged with providing such a mechanism has been the World Trade Organization WTO This book explains why and how the reform of fisheries subsidies has become one of the most concrete and potentially successful international efforts to achieve global environmental economic and developmental policy coherence It describes the history and current status of the discussions at the WTO drawing on UNEP s key documents and reflecting on the major issues Accompanying the book are downloadable resources containing full text versions of the most important source material used in the publication The book is aimed at a broad stakeholder audience including policymakers in the fields of trade fisheries environmental economics and international environmental governance as well as academics and others looking for an overview of the fisheries subsidies issue and an introduction to its technical components Published with the United Nations Environment Programme UNEP *The WTO Dispute Settlement Mechanism* Alberto do Amaral Júnior, Luciana Maria de Oliveira Sá Pires, Cristiane Lucena Carneiro, 2019-04-09 This book offers a multidisciplinary approach to the Dispute Settlement Mechanism DSM by bringing together contributions from legal scholars and political scientists Most of the authors belong to a tightly knit legal epistemic community trained at the University of S o Paulo and at the top ranked research and policy centers on WTO law in Europe Presenting a novel and unique perspective on the DSM it provides an analysis of current themes at the heart of the WTO Dispute Settlement Mechanism through the lenses of scholars with a developing country perspective Focusing on assessment substance and process it presents a three fold approach to the analysis and offers a singular contribution to the scholarly literature on the WTO The book discusses the topic from the viewpoint of individuals deeply involved in the scholarly production as well as the daily operation of the mechanism The contributors include academics in the fields of international

economic law and political science diplomats individuals engaged in legal private practice and individuals affiliated with the WTO as well as WTO related think tanks The result is a balanced perspective on pressing issues that have arisen and that are likely to remain at the center of the scholarly and policy debate for years to come Commerce America ,1976
