Bandits Daisy Kerr, 1998 Surveys the history of bandits throughout the world from the Celtic raiders to bandits of the twentieth century *The Early Modern World, 1450-1750* John C. Corbally, Casey J. Sullivan, 2022-01-27 The Early Modern World 1450 1750 Seeds of Modernity takes a distinctive approach to global history and enables a holistic view of the world during this period without prioritizing any one nation or region It guides students towards an understanding of how different empires nations communities and individuals constructed contested and were touched by major trends and events Its thematic structure covers politics technology economics the environment and intellectual and religious worldviews In order to connect global trends and events to human experiences each chapter is underpinned by a social and cultural history focus enabling the reader to gain an understanding of the lived human experience and make sense of various perspectives and worldviews The Legacy feature also discusses connections between early modern history and the contemporary world looking at how the past is contested or memorialized today The result is a textbook that helps the 21st century student gain a rich and nuanced understanding of the global history of the early modern period *Energy and Water Development Appropriations for 1997* United States.
