Burger, 2017-08-15 Despite widespread acknowledgment that both personal and situational factors influence behavior researchers in the area of social influence have been slow to examine individual differences in their work Indeed social influence investigators often point to their findings to illustrate the power of situational variables relative to personal causes of behavior However as the articles in this volume demonstrate social influence researchers can obtain a greater understanding of the phenomena they study by incorporating individual difference variables into their research **Six Degrees of Social Influence** Douglas T. Kenrick, Noah J. Goldstein, Sanford L.
