ancient Christian writers and the development of early Christian doctrine make some reference to the philosophic background this is often of an anecdotal character and does not enable the reader to determine whether the likenesses are deep or superficial or how pervasively one particular philosopher may have influenced Christian thought This volume is designed to provide not only a body of facts more compendious than can be found elsewhere but the contextual information which will enable readers to judge or clarify the statements that they encounter in works of more limited scope With contributions by an international group of experts in both philosophy and Christian thought this is an invaluable resource for scholars of early Christianity Late Antiquity and ancient philosophy alike
