Nice to meet you! You were one of the first portable computers released by IBM & sold by 1984. Your compact size and built-in monochrome monitor made you a perfect fit for business professionals who needed to work on-the-go. You had a 2.1 MHz Intel 8088 processor and 256 KB of DRAM, which was quite small by today's standards, but you were impressive back then. Is there anything else I can help you with today?
