France Italy Germany Switzerland

ANDREW WILTON

The background of the book cover is a watercolor illustration of a European city street scene. The style is soft and atmospheric, with visible brushstrokes. In the center, a large dome, possibly St. Peter's Basilica, rises above a cluster of buildings. To the left, there are classical structures with columns. In the foreground, a boat is visible on a body of water, and there are some yellow and brown foliage-like shapes on the right side. The overall color palette is muted, with a lot of light blues, greys, and earthy tones.

Turner and the Art of Water Carmen Casaliggi, 2022-12-20 This book assesses Ruskin's and Turner's mutual interest in the theme of water with particular reference to *The Harbours of England* 1856 Ruskin's book on ships and marine art to which are appended Turner's 12 illustrations of the English ports By considering existing scholarly works on Ruskin and Turner the book begins by demonstrating that the two despite their widely acknowledged relations have rarely been examined in conjunction It raises the question as to how the subject of water inspired the intellectual aesthetic philosophical and scientific climate of the nineteenth century both in Britain and abroad and acknowledges the significance of the relationship between Ruskin and Turner in the context of aquatic studies Ruskin's childhood fascination with water is examined in detail while the scientific and spiritual importance of the subject in *Modern Painters* and *The Stones of Venice* is also emphasised and read in parallel with *The Harbours of England* a detailed account of which is given referring to both text and illustrations Turner's role in Ruskin's understanding of specific water pictures is also reconstructed The book demonstrates that water is important as a multifaceted compendium of contemporary themes for tradition progress nationalism and patriotism find their iconography in its depiction Considering the literary and painterly implications of wateriness the text concludes with a reflection upon the significance of the study of water for Ruskin and Turner and for their age *The Life of J.M.W.
