Hodges, 2020-04-20 The nEU Med project is part of the Horizon 2020 programme in the ERC Advanced project category It  
began in October 2015 and the University of Siena is the host institution of the project The project is focussed upon two  
Tuscan riverine corridors leading from the Gulf of Follonica in the Tyrrhenian Sea to the Colline Metallifere It aims to  
document and analyze the form and timeframe of economic growth in this part of the Mediterranean which took place  
between the 7th and the 12thc Central to this is an understanding of the processes of change in human settlements in the  
natural and farming landscapes in relation to the exploitation of resources and in the implementation of differing political  
strategies This volume presents the multi disciplinary research focussed upon the key site of the project Vetricella and its  
territory Vetricella is thought to be the site of Valli a royal property in the Tuscan march It is the only Early Medieval  
property to be extensively studied in Italy Located on Italy's Tyrrhenian coast the archaeology and history of this site provide  
new insights on estate management metal production and wider Mediterranean relations in the later first millennium Apart  
from reports on the archaeology the finds from excavations and environmental studies three essays consider the wider  
European historical and archaeological context of Vetricella Future monographs will feature studies by members of the  
project team on aspects of Vetricella its finds and territory      **The United States Catalog** ,1906      *The Map of Europe by
