UNWILLING SURRENDER Cathy Williams,2012-07-16 I m immune to male charm and good looks That was what Christina told herself and Adam Palmer had more than his fair share of both qualities as Christina knew only too well having had a crush on him since she was a teenager But he d responded to her naive infatuation with arrogance and scorn and Christina had finally managed to harden her heart against him just as Adam seemed to take a sudden interest in her What was he up to Famous for preferring leggy blondes he had to be amusing himself by toying with plain sensible Christina s affections Well two could play at that game

Supernatural Transformation Guillermo Maldonado,2014-06-03 The central organ of the human body is the heart It circulates the blood throughout the whole bodily system pumping oxygen and nutrients to the other organs and pulling toxins away from them Yet we human beings have another heart a spiritual one that is the true center of our existence Our spiritual heart is our identity It is the foundation of our whole being from which our desires designs purposes will thoughts and attitudes originate Yet as a result of the fall and our sinful nature we all have symptoms of heart disease and we need to know how to become spiritually heart healthy As the Scriptures say The heart is deceitful above all things and desperately wicked who can know it Jeremiah 17 9 Every spiritual mental and emotional matter and many physical ones is rooted in the heart The state of our spiritual heart affects all aspects of our daily living Therefore the condition of our heart will be the condition of our life Join Apostle Maldonado on a journey of discovery into the purpose motivations and potential of our spiritual heart God wants us to understand how in Christ our heart is designed to pump life to our entire being producing mental emotional and physical health and removing the toxins of sin We were created to reflect the heart of our heavenly Father And God is ready even now to change our heart to be like His through a supernatural transformation
