Washington, 2018-10-13 *Up from Slavery* is the 1901 autobiography of American educator Booker T. Washington (1856-1915). The book describes his personal experience of having to work to rise up from the position of a slave child during the Civil War to the difficulties and obstacles he overcame to get an education at the new Hampton Institute, to his work establishing vocational schools, most notably the Tuskegee Institute in Alabama, to help black people and other disadvantaged minorities learn useful marketable skills and work to pull themselves up by the bootstraps. He reflects on the generosity of both teachers and philanthropists who helped in educating blacks and Native Americans. He describes his efforts to instill manners, breeding, health, and a feeling of dignity to students. His educational philosophy stresses combining academic subjects with learning a trade, something which is reminiscent of the educational theories of John Ruskin. Washington explained that the integration of practical subjects is partly designed to reassure the white community as to the usefulness of educating black people. This book was first released as a serialized work in 1900 through *The Outlook*, a Christian newspaper of New York. This work was serialized because this meant that during the writing process, Washington was able to hear critiques and requests from his audience and could more easily adapt his paper to his diverse audience. *Up from Slavery*

Washington, 2018-05-02 First published serially in the Christian newspaper *The Outlook* in 1900, *Up from Slavery* is the classic autobiography of one of the most controversial figures in American history. Booker T. Washington's *Up from Slavery* recounts Washington's rise from a Virginia tobacco farm slave to his long-standing tenure as President of the famed Tuskegee Institute of Alabama. Booker T. Washington was instrumental in helping to establish schools specializing in vocational training for minorities in order to advance their position in society by obtaining marketable skills. Washington's message was one of the advancement of African Americans through economic empowerment, for as he put it, the individual who can do something that the world wants done will in the end make his way regardless of his race. While he has been described as an accommodationist and a calculating realist, his message of self-empowerment has been a dramatic force in the fight for racial equality and shall forever be remembered in the annals of American history.
