Urban Encounters Martha Radice, Alexandrine Boudreault-Fournier, 2017-05-17 Public art is on the urban agenda Given recent claims about the importance of creativity to urban prosperity opportunities for installing or performing art in the city have multiplied As cities strive to appear culturally dynamic the stakes of artistic production rise higher than ever Exploring the interaction between art and the public in Canadian cities Urban Encounters features writing by artists architects curators anthropologists geographers and urban studies specialists They show how people and places affect the structure and content of public artworks what kinds of urban spaces and socialities are generated through art and how to investigate and interpret encounters between art and its viewers in the city Discussing a variety of art forms including mobile cinemas street improvisation audiovisual investigations and assembled objects the contributors treat public artworks not just as aesthetic installations but as agents that participate in the social and cultural evolution of cities Using original hands on approaches Urban Encounters reveals how art in the urban public space generates encounters that can transform both the city itself and the ways that people relate to it Contributors include Alison Bain York University Robert Bean NSCAD University Lawrence Bird architect artist Alexandrine Boudreault Fournier University of Victoria Brenden Harvey Dalhousie University Wes Johnston artist curator L ola Le Blanc media artist Brian Lilley Dalhousie University Barbara Louder NSCAD University Mary Elizabeth Luka York University Sebastian Matthias HafenCityUniversity Christof Migone Western University Ellen Moffat media artist Kim Morgan NSCAD University Solomon Nagler NSCAD University Martha Radice Dalhousie University Nicole Rallis McMaster University Susanne Shawyer Elon University Shannon Turner Aarhus University Laurent Vernet INRS Urbanisation Culture Soci t and Nick Wees University of Victoria

Encountering the City Jonathan Darling, Helen F. Wilson, 2018-02-12 Encountering the City provides a new and sustained engagement with the concept of encounter Drawing on cutting edge theoretical work classic writings on the city and rich empirical examples this volume demonstrates why encounters are significant to urban studies politically philosophically and analytically Bringing together a range of interests from urban multicultural systems of economic regulation security and suspicion to more than human geographies soundscapes and spiritual experience Encountering the City argues for a more nuanced understanding of how the concept of encounter is used This interdisciplinary collection thus provides an insight into how scholars writing on and in the city mobilise theorise and challenge the concept of encounter through empirical cases taken from Africa Asia Australia Europe North America and South America These cases go beyond conventional accounts of urban conviviality to

demonstrate how encounters destabilise rework and produce difference fold together complex temporalities materialise power and transform political relations In doing so the collection retains a critical eye on the forms of regulation containment and inequality that shape the taking place of urban encounter Encountering the City is a valuable resource for students and researchers alike URBAN ENCOUNTERS. ,1980 *Encountering the City* Jonathan Darling,Helen F. Yoels,1991 Being Urban examines the dynamic interplay between what theoretical perceptions tell us about urban life and how ordinary people interpret and respond to the actual experience of living in cities Major focuses are the primacy of social interaction for an understanding of urban life and the strategies people use to create community in environments which many theorists more ts believe promote only alienation and social disintegration This new edition incorporates a strongly interdisciplinary perspective and includes new chapters on significant topics that have received little critical attention in the field City Publics Sophie Watson,2006 Through her investigation of the more ordinary and less dramatic forms of encounter and contestation in the city author Sophie Watson is able to conceive of an urban public realm and urban public space that is heterogeneous and potentially progressive **Art in Urban Space** Tamas Juhasz,2021-01-01 This collection grew out of the international conference entitled Arts and the City hosted by K roli G sp r University and the Hungarian Academy of Sciences in 2019 With speakers from across the world this scholarly event reflected the diversity and deeply interdisciplinary character of contemporary urban studies and its relation to inclusive artistic practices Thus this book offers global academic perspectives on the function relevance and social embeddedness of art in selected European and

North American cities and as occasional detours in other parts of the world The three main sections of the book are entitled Public Art Considerations War Travel and Resistance and London Word Action and Image The collection explores mainly 20th and 21st century urban phenomena with three chapters exploring city culture in earlier eras This book will be valuable reading for students academics policy makers and anyone with an interest in urban culture cultural geography literature art history and art theory

Western Forestry Conference**, 1986 **Harvard Design Magazine**, 2006 *Changing Urban Education* Clarence Nathan Stone, 1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why *Changing Urban Education* confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation's leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved *Changing Urban Education* makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not

entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future *Revitalizing Urban Neighborhoods* William Dennis Keating, Norman Krumholz, Philip Star, 1996 Since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district However such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise America This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development Together they show how urban neighborhoods can and must be preserved as economic cultural and political centers **Canadian Ethnic Studies**, 1977
