Frank Baum,2007-07-15 Readers who have followed Dorothy s adventures in the Land of Oz will be interested in Trot s equally strange experiences Many children implored me to write something about the mermaids and I willingly granted the request The Sea Fairies was received with much approval by my readers many have written me that they like Trot almost as well as Dorothy This story of Sky Island has astonished me and I think it will also astonish you The sky country is certainly a remarkable land L Frank Baum In Sky Island are some other recognisable Oz characters Button Bright and Polychrome the Rainbow s Daughter You will also meet the bad Greatly Stately Irately Boolooroo who takes our friends prisoner and the little blue dog that crows like a rooster the pretty blue cat that sings like a bird the soft blue lamb that chatters like a monkey the poetic blue parrot that barks like a dog and the fuzzy blue rabbit that roars like a lion Giant 8 5 x 11 book **Ceramic Review** ,1990 **Solidarity** ,2002 **Second Lives** Tim Guest,2008-02-19 We ve always dreamed of perfect places Eden heaven Utopia Imagine gambling without loss love without heartbreak sex without exposure experience without risk Welcome to the fascinating world of online virtual reality the land of invented places and populations that is entered and inhabited every week by nearly fifty million people worldwide Each participant creates a virtual body works at virtual jobs and makes virtual friends and family In *Second Lives* Tim Guest an internationally acclaimed young journalist takes us on a revelatory journey through the electronic looking glass as he investigates one of the most bizarre phenomena of the twenty first century From *Second Life* to *EverQuest* and beyond here are the computer generated environments and characters that can easily become more engrossing and fulfilling than earthly existence With the click of a mouse you can select eye color face shape height you can even give yourself wings Your character or avatar can build houses make and sell works of art earn money get married and divorced In this fascinating and groundbreaking book Guest meets people who found meaningful love and friendship despite never having met in person catches up with the companies that have used virtual worlds to make big money investigates the U S military s massive online global model that trains soldiers to fight anyone anywhere and travels all the way to gaming crazed Korea to get a taste for just how big this phenomenon really is At first glance these new computer generated places seem free from trouble and sorrow But Guest examines the dark side of this technology too including the online criminals who plague imaginary worlds from cyber mafiosos and prostitutes to real hackers and
