World Backwards:

The Man Who Walked Backward Ben Montgomery, 2018-09-18 From Pulitzer Prize finalist Ben Montgomery the story of a Texas man who during the Great Depression walked around the world backwards Like most Americans at the time Plennie Wingo was hit hard by the effects of the Great Depression When the bank foreclosed on his small restaurant in Abilene he found himself suddenly penniless with nowhere left to turn After months of struggling to feed his family on wages he earned digging ditches in the Texas sun Plennie decided it was time to do something extraordinary something to resurrect the spirit of adventure and optimism he felt he'd lost He decided to walk around the world backwards In *The Man Who Walked Backward* Pulitzer Prize finalist Ben Montgomery charts Plennie's backwards trek across the America that gave rise to Woody Guthrie John Steinbeck and the New Deal With the Dust Bowl and Great Depression as a backdrop Montgomery follows Plennie across the Atlantic through Germany Turkey and beyond and details the daring physical feats grueling hardships comical misadventures and hostile foreign police he encountered along the way A remarkable and quirky slice of Americana *The Man Who Walked Backward* paints a rich and vibrant portrait of a jaw dropping period of history

Avant-Garde World Creation Abigael van Alst, 2025-10-30 This book explores the widespread fascination with world creation among early twentieth century artists and examines those trends within the European avant garde The book reflects on what the world looks and feels like before and after World War One and thus also concerns creativity and destruction alike in the context of modernity Over the course of three chapters the author focusses on works in which avant garde artists combine and experiment with various arts and media to create alternative narratives of the world's creation These works include three canonized total works of art *Der Weltbaumeister* *The World's Master Builder* 1920 an illustrated book imagined as an architectural play by the Expressionist architect Bruno Taut the Futurist opera *C Victory Over the Sun* 1913 by Aleksei Kruchenykh Velimir Khlebnikov Kazimir Malevich and Mikhail Matiushin and the Cubist ballet *La Cr ation du monde* *The Creation of the World* 1923 by Blaise Cendrars Fernand L ger Darius Milhaud and Jean B rlin Providing new readings of these classic works that dive deeply into the avant garde's inter artistic search for new modes of mediation as well as its dialogue with science politics and technology Abigael van Alst demonstrates how each of these artworks staged a cosmogony an alternative story of the universe's creation which simultaneously experimentally and critically recounted the story of modernity This new book is ideal for researchers and scholars in History of Art Modernism and Comparative Literature

The Riddle of Humanity Rudolf Steiner, 2025-10-20 In these foundational lectures Rudolf Steiner presents a bold and spiritually alive understanding of human evolution and our deep connection to the cosmos Far more than a philosophical inquiry this work is a challenge to the assumptions of materialism and an appeal to reawaken to our spiritual tasks Speaking to members of the Anthroposophical Society Steiner explores the dual nature of the human being cosmic and earthly and the subtle interplay between past incarnations and the transformation of the body He offers profound insights into the evolution

of the senses the creative power of aesthetics and how human life is interwoven with cosmic forces Through vivid metaphysical descriptions and rigorous esoteric thought Steiner outlines how the soul evolves across lifetimes shaped not only by earthly experiences but by celestial rhythms and spiritual laws He emphasizes the vital role of inner development meditation moral striving and self knowledge as the pathway to freedom and true understanding These lectures lay a groundwork for Steiner s spiritual science offering a clear alternative to the mechanistic worldview and inviting readers to rediscover the riches of human life through spiritual awareness The new edition of these lectures features an introduction by Margaret Jonas editorial notes and an index Trans by J F Logan Intro by M Jonas Fifteen lectures July Sept 1916 Dornach GA 170
