World Without Welfare:

New Methuselahs John K. Davis,2024-03-19 An examination of the ethical issues raised by the possibility of human life extension including its desirability unequal access and the threat of overpopulation Life extension slowing or halting human aging is now being taken seriously by many scientists Although no techniques to slow human aging yet exist researchers have successfully slowed aging in yeast mice and fruit flies and have determined that humans share aging related genes with these species In New Methuselahs John Davis offers a philosophical discussion of the ethical issues raised by the possibility of human life extension Why consider these issues now before human life extension is a reality Davis points out that even today we are making policy and funding decisions about human life extension research that have ethical implications With New Methuselahs he provides a comprehensive guide to these issues offering policy recommendations and a qualified defense of life extension After an overview of the ethics and science of life extension Davis considers such issues as the desirability of extended life whether refusing extended life is a form of suicide the Malthusian threat of overpopulation equal access to life extension and life extension and the right against harm In the end Davis sides neither with those who argue that there are no moral objections to life enhancement nor with those who argue that the moral objections are so strong that we should never develop it Davis argues that life extension is on balance a good thing and that we should fund life extension research aggressively and he proposes a feasible and just policy for preventing an overpopulation crisis **Inclusive**

Growth in Australia John Buchanan,2020-07-16 **Inclusive Growth in Australia** overturns two decades of assumptions that social policy is wasteful and a source of dependency It reflects a global resurgence of the understanding that an active and effective social policy regime is vital not only for a flourishing society but also for a strong economy It explains this new paradigm of inclusive growth and shows how it can be implemented in Australia Inclusive growth dismantles the idea that social development will automatically trickle down from untrammelled market based growth Rather growth must be managed so that it is employment centred broad based across sectors and with a social security system promoting sustainability and equality of opportunity The editors argue that productivity is nearly everything when it comes to raising living standards So while social policies will be about goals other than the economy they must demonstrate their compatibility with an economic growth strategy With contributions from leading national and international experts in the field including Marian Baird Grant Belchamber Gerald Burke Saul Eslake Roy Green and Peter Whiteford **Inclusive Growth in Australia** shows that welfare state spending is as much an economic investment as a measure of social protection Written for policy makers industry and NGOs as well as students **Inclusive Growth in Australia** locates Australian economic and social policy within the most important emergent themes shaping international debate *Law and Economics* Margaret Oppenheimer,Nicholas

Mercurio,2015-06-01 The economic analysis of legal and regulatory issues need not be limited to the neoclassical economic approach The expert contributors to this work employ a variety of heterodox legal economic theories to address a broad

range of legal issues They demonstrate how these various approaches can lead to very different conclusions concerning the role of the law and legal intervention in a wide array of contexts The schools of thought and methodologies represented here include institutional economics new institutional economics socio economics social economics behavioral economics game theory feminist economics Rawlsian economics radical economics Austrian economics and personalist economics The legal and regulatory issues examined include anti trust and competition corporate governance the environment and natural resources land use and property rights unions and collective bargaining welfare benefits work time regulation and standards sexual harassment in the workplace obligations of employers and employees to each other crime torts and even the structure of government Each contributor brings a different emphasis and provides thoughtful sometimes provocative analysis and conclusions Together these heterodox insights will provide valuable supplementary reading for courses in law and economics as well as public policy and business courses at both the graduate and undergraduate levels *How Now Shall We Live?*

World's Work Walter Hines Page, Arthur Wilson Page, 1922 A history of our time **Poverty in the Midst of Affluence** Leo F. Goodstadt, 2014-12-01 Hong Kong is among the richest cities in the world Yet over the past 15 years living conditions for the average family have deteriorated despite a robust economy ample budget surpluses and record labour productivity Successive governments have been reluctant to invest in services for the elderly the disabled the long term sick and the poor while education has become more elitist The political system has helped to entrench a mistaken consensus that social spending is a threat to financial stability and economic prosperity In this trenchant attack on government mismanagement Leo Goodstadt traces how officials have created a new poverty in Hong Kong and argues that their misguided policies are both a legacy of the colonial era and a deliberate choice by modern governments and not the result of economic crises This provocative book will be essential reading for anyone wishing to understand why poverty returned to Hong Kong in this century The book has been thoroughly revised and updated for this new paperback edition Leo Goodstadt has identified the

New Poor as those made vulnerable through diminishing access to essential services and opportunities The culprits are misguided policies and the callous and uncaring decisions of those in power This compelling critique carries weight and demands a response Christine Fang Former Chief Executive of The Hong Kong Council of Social Service This is a critical reflection on Hong Kong s path of social development and a most discerning analysis of the Third World mentality espoused by the government and the business community in the area of social welfare Lui Tai lok Chair Professor of Hong Kong Studies The Hong Kong Institute of Education Welfare spending was like pouring sand into the sea to reclaim land thought one Chief Executive Governments restrained social spending based on that skewed view This book is meticulously researched and painfully insightful It is a masterly chronicle of Hong Kong s social welfare policy Anna Wu Non Official Member of the Executive Council HKSAR *Protesting about Pauperism* Elizabeth T.
