The World's Way ,1864 **You** Edward William Bok,1928 *The Seer* ,1853 *The World a Spiritual System* James Henry Snowden,1910 **The Emergence of Spacetime in String Theory** Tiziana Vistarini,2019-06-12 The nature of space and time is one of the most fascinating and fundamental philosophical issues which presently engages at the deepest level with physics During the last thirty years this notion has been object of an intense critical review in the light of new scientific theories which try to combine the principles of both general relativity and quantum theory called theories of quantum gravity This book considers the way string theory shapes its own account of spacetime disappearance from the fundamental level **Handing Down the Faith** Christian Smith,Amy Adamczyk,2020-07-02 A new examination of how and why American religious parents seek to pass on religion to their children The most important influence shaping the religious and spiritual lives of children youth and teenagers is their parents A myriad of studies show that the parents of American youth play the leading role in shaping the character of their religious and spiritual lives even well after they leave home and often for the rest of their lives We know a lot about the importance of parents in faith transmission However we know much less about the actual beliefs feelings and activities of the parents themselves what Christian Smith and Amy Adamczyk call the intergenerational transmission of religious faith and practice To address that gap this book reports the findings of a new national study of religious parents in the United States The findings and conclusions in *Handing Down the Faith* are based on 215 in depth personal interviews with religious parents from many traditions and different parts of the country and sophisticated analyses of two nationally representative surveys of American parents about their religious parenting *Handing Down the Faith* explores the background beliefs informing how and why religious parents seek to pass on religion to their children examines how parenting styles interact with parent religiousness to shape effective religious transmission shows how parents have been influenced by their experiences as children influenced by their own parents reveals how religious parents view their congregations and what they most seek out in a local church synagogue temple or mosque explores the experiences and outlooks of immigrant parents including Latino Catholics East Asian Buddhists South Asian Muslims and Indian Hindus Smith and Adamczyk step back to consider how American religion has transformed over the last 100 years and to explain why parents today shoulder such a huge responsibility in transmitting religious faith and practice to their children The book is rich in empirical evidence and unique in many of the topics it explores and explains providing a variety of sometimes counterintuitive findings that will interest scholars of religion social scientists interested in the family parenting and socialization clergy and religious educators and leaders and religious parents themselves **The Fragmentation of Being** Kris McDaniel,2017-07-28 *The Fragmentation of Being* offers answers to some of the most fundamental questions in ontology There are many kinds of beings but are there also many kinds of being The world contains a variety of objects each of which let us provisionally assume exists but do some objects exist in different ways Do some objects enjoy more being or

existence than other objects Are there different ways in which one object might enjoy more being than another Most contemporary metaphysicians would answer no to each of these questions So widespread is this consensus that the questions this book addressed are rarely even raised let alone explicitly answered But Kris McDaniel carefully examines a wide range of reasons for answering each of these questions with a yes In doing so he connects these questions with many important metaphysical topics including substance and accident time and persistence the nature of ontological categories possibility and necessity presence and absence persons and value ground and consequence and essence and accident In addition to discussing contemporary problems and theories McDaniel also discusses the ontological views of many important figures in the history of philosophy including Aquinas Aristotle Descartes Heidegger Husserl Kant Leibniz Meinong and many more

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him.
