World Of Toni Morrison:

Toni Morrison's World of Fiction Karen Carmean,1993 This study analyzes clarifies and interprets Morrison s novels in such a way as to reveal her total achievement Extensive discussions of the novels provide such useful information as their critical receptions and the immediate personal experiences and pressures that initially inspired the stories But the ultimate concern of these discussions is to discover the thematic meanings that drive the texts and to show how Morrison s stylistic choices underline these meanings From book jacket [The World of Toni Morrison](#) Bessie W. The World of Toni Morrison Fitos Mónika,1995 **The World of Toni Morrison** Gloria G. Roberson,2003-06-30 This guide to Toni Morrison s novels contains more than 800 brief entries highlighting all of her characters and settings both major and minor book cover [Toni Morrison](#) Jill L. Matus,1998-09-15 This is an illuminating and original introduction to Toni Morrison s fiction focusing on its engagement with African American history and the way the traumas of the collective past shape Morrison s work Jill Matus approaches Morrison s fiction as a form of cultural memory concerned with obscured or erased history She argues that Morrison sees African American history from the times of slavery to the continued racial oppressions of the twentieth century as a history of traumatic experience and explores how this powerful storyteller bears witness to a painful yet richly enlivening past Morrison s novels are known for their great lyric power but they often dwell on scenes of horror and Matus emphasizes the uneasy relations of memory pain and pleasure in literature In doing so she sheds new light on Morrison as a contemporary writer working at a time when literature is being urgently explored for its capacity to memorialize and testify Direct and accessible this critical study highlights the political and historical contexts of Morrison s work offers close readings of each of the novels and concludes with a critical overview of the field of Morrison studies

[The American Popular Novel After World War II](#) David Willbern,2013-03-29 Through the perspectives of selected best selling novels from the end of World War II to the end of the 20th century including The Catcher in the Rye To Kill a Mockingbird The Godfather Jaws Beloved The Silence of the Lambs and Jurassic Park this book examines the crucial issues the U S was experiencing during those decades These novels represent the voices of popular conversations as Americans considered issues of family class racism and sexism feminism economic ambition sexual violence war law religion and science Through the windows of fiction the book surveys the Cold War and anti communism the prefeminist era of the 1950s and the sexual revolution of the 1970s forms of corporate power in the 1960s and 1980s the traumatic legacies of slavery and Vietnam the American fascination with lawyers cops and criminals alternate styles of romance in the era of late capitalism our abiding distrust of science and our steadfast wonder about the Great Mysteries **A World of Difference** Wendy Harding,Jacky Martin,1994-09-30 Throughout her novels Toni Morrison explores the complex interaction of race class culture and gender This study takes into account both Western and Black traditions to show how Morrison not only denounces the constricting patterns of the dominant culture but also through the reversal or subversion of Western stereotypes harnesses

the rich potential for the significance they contain While most recent studies of Morrison examine individual works separately this book concentrates on particular dimensions of Morrison s fiction and explores the continuities and developments from her first to most recent novel And while other studies generally approach Morrison from a particular critical perspective this book instead considers the interaction of multiple determinants such as race and gender and gives special attention to the pressure exerted by dominant cultural forms The authors demonstrate how in contradiction to the dominant culture s ideology of unity and homogeneity Morrison makes a case for the value of difference in a diverse society

The Fictional World of Toni Morrison Veena Vijaya,2012-04 The Black Women Writers enriched American life and have given voice to the Black experience An aesthetic perspective that embraces the racial loyalty and pride can be found in Toni Morrison s works In 1993 Morrison received the Nobel Prize in literature the first African American ever to be so honoured Her best selling novels *The Bluest Eye* *Sula* *Song of Solomon* *Tar Baby* *Beloved* *Jazz* *Paradise* and *Love* combine the symbolic virtues of modernism with the politics of the Black Aesthetic The fictional world of Morrison is concerned with people who in terms of their ancestry are displaced dispossessed and separated from their identity and history She has become one of the most frequently discussed African American authors in history A versatile and gifted writer Morrison is especially acclaimed for her novels In beautiful but often disturbing language she has created literary masterpieces out of the effects of the most debilitating problems in American life Morrison s genius has earned her praise as the most internationally celebrated African American writer in history and indeed as one of western culture s premier twentieth century authors

Toni Morrison and the Natural World Anissa Janine Wardi,2021-06-28 Winner of the Toni Morrison Society Book Prize for Best Single Authored Book 2019 2022 Critics have routinely excluded African American literature from ecocritical inquiry despite the fact that the literary tradition has from its inception proved to be steeped in environmental concerns that address elements of the natural world and relate nature to the transatlantic slave trade plantation labor and nationhood Toni Morrison s work is no exception *Toni Morrison and the Natural World: An Ecology of Color* is the first full length ecocritical investigation of the Nobel Laureate s novels and brings to the fore an unequalled engagement between race and nature Morrison s ecological consciousness holds that human geographies are enmeshed with nonhuman nature It follows then that ecology the branch of biology that studies how people relate to each other and their environment is an apt framework for this book The interrelationships and interactions between individuals and community and between organisms and the biosphere are central to this analysis They highlight that the human and nonhuman are part of a larger ecosystem of interfacing and transformations *Toni Morrison and the Natural World* is organized by color examining soil brown in *The Bluest Eye* and *Paradise* plant life green in *Song of Solomon* *Beloved* and *Home* bodies of water blue in *Tar Baby* and *Love* and fire orange in *Sula* and *God Help the Child* By providing a racially inflected reading of nature *Toni Morrison and the Natural World* makes an important contribution to the field of environmental studies and provides a landmark for Morrison scholarship
