

- ③ There is huge management of resources at every stage.
- ④ Project teams have to continuously deal with time and new technology challenges.
- ⑤ The cost of programming only is not sufficient to construct large softwares.

Software Engineering - A Layered Technology Approach:

Software Engineering is a layered technology. Due to this software Engineering process has become more and more matured.

- * A Quality Focus :- Any engineering approach must be based on an organisational commitment to quality. Total quality management develops a continuous process improvement culture, and this leads to the development of more mature approach to software engineering. The bedrock that supports software engineering is a quality focus.
