The Meitheis T. C. Hodson,1908 **The Meitheis, by T.C. Hodson ...** T. C. Hodson,1908 **The Meitheis** Thomas Callan Hodson,Charles James Lyall,1908 *A Grammar of Meithei* Shobhana Lakshmi Chelliah,1997 The series builds an extensive collection of high quality descriptions of languages around the world Each volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and if appropriate a word list and other relevant information which is available on the language in question There are no restrictions as to language family or area and although special attention is paid to hitherto undescribed languages new and valuable treatments of better known languages are also included No theoretical model is imposed on the authors the only criterion is a high standard of scientific quality *Folk-lore in the Old Testament* James George Frazer,1918 *North-East India: Land, People and Economy* K.R. Dikshit,Jutta K Dikshit,2013-10-21 North East India comprising the seven contiguous states around Assam the principal state of the region is a relatively unknown yet very fascinating region The forest clad peripheral mountains home to indigenous peoples like the Nagas Mizos and the Khasis the densely populated Brahmaputra valley with its lush green tea gardens and the golden rice fields the moderately populated hill regions and plateaus and the sparsely inhabited Himalayas form a unique mosaic of natural and cultural landscapes and human interactions with unparalleled diversity The book provides a glimpse into the region s past and gives a comprehensive picture of its physical environment people resources and its economy The physical environment takes into account not only the structural base of the region its physical characteristics and natural

vegetation but also offers an impression of the region's biodiversity and the measures undertaken to preserve it. The people of the region, especially the indigenous population inhabiting contrasting environments and speaking a variety of regional and local dialects, have received special attention, bringing into focus the role of migration that has influenced the traditional societies for centuries. The book acquaints the readers with spatial distribution, life style and culture of the indigenous people, outlining the unique features of each tribe. The economy of the region, depending originally on primitive farming and cottage industries like silkworm rearing but now greatly transformed with the emergence of modern industries, power resources and expanding trade, is reviewed based on authentic data and actual field observations. The epilogue, the last chapter in the book, summarizes the author's perception of the region and its future.
