**Software Engineering for Parallel and Distributed Systems** Innes Jelly,Ian Gorton,Peter Croll,2016-01-09 A wide range of modern computer applications require the performance and flexibility of parallel and distributed systems Better software support is required if the technical advances in these systems are to be fully exploited by commerce and industry This involves the provision of specialised techniques and tools as well as the integration of standard software engineering methods This book will reflect current advances in this area and will address issues of theory and practice with contributions from academia and industry It is the aim of the book to provide a focus for information on this developing which will be of use to both researchers and practitioners

**Tools and Environments for Parallel and Distributed Systems** Amr Zaky,Ted Lewis,2012-12-06 Developing correct and efficient software is far more complex for parallel and distributed systems than it is for sequential processors Some of the reasons for this added complexity are the lack of a universally acceptable parallel and distributed programming paradigm the criticality of achieving high performance and the difficulty of writing correct parallel and distributed programs These factors collectively influence the current status of parallel and distributed software development tools efforts Tools and Environments for Parallel and Distributed Systems addresses the above issues by describing working tools and environments and gives a solid overview of some of the fundamental research being done worldwide Topics covered in this collection are mainstream program development tools performance prediction tools and studies debugging tools and research and nontraditional tools Audience Suitable as a secondary text for graduate level courses in software engineering and parallel and distributed systems and as a reference for researchers and practitioners in industry

*Software Engineering, Artificial Intelligence, Networking and Parallel/Distributed Computing* Roger Lee,2014-09-02 This edited book presents scientific results of 15th IEEE ACIS International Conference on Software Engineering Artificial Intelligence Networking and Parallel Distributed Computing SNPD 2014 held on June 30 July 2 2014 in Las Vegas Nevada USA The aim of this conference was to bring together scientists engineers computer users and students to share their experiences and exchange new ideas research results about all aspects theory applications and tools of computer and information science and to discuss the practical challenges encountered along the way and the solutions adopted to solve them The conference organizers selected the 13 outstanding papers from those

papers accepted for presentation at the conference **Software Engineering, Artificial Intelligence, Networking and Parallel/Distributed Computing 2010** Roger Lee, 2010-10-01 The purpose of the 11 Conference on Software Engineering Artificial Intelligence Networking and Parallel Distributed Computing SNPDP 2010 held on June 9-11 2010 in London United Kingdom was to bring together researchers and scientists businessmen and entrepreneurs teachers and students to discuss the numerous fields of computer science and to share ideas and information in a meaningful way Our conference officers selected the best 15 papers from those papers accepted for presentation at the conference in order to publish them in this volume The papers were chosen based on review scores submitted by members of the program committee and underwent further rounds of rigorous review In Chapter 1 Cai Luyuan et al Present a new method of shape decomposition based on a refined morphological shape decomposition process In Chapter 2 Kazunori Iwata et al propose a method for reducing the margin of error in effort and error prediction models for embedded software development projects using artificial neural networks ANNs In Chapter 3 Viliam imko et al describe a model driven tool that allows system code to be generated from use cases in plain English In Chapter 4 Abir Smiti and Zied Elouedi propose a Case Base Maintenance CBM method that uses machine learning techniques to preserve the maximum competence of a system In Chapter 5 Shagufta Henna and Thomas Erlebach provide a simulation based analysis of some widely used broadcasting schemes within mobile ad hoc networks MANETs and propose adaptive extensions to an existing broadcasting algorithm **Advanced Techniques in Computing Sciences and Software Engineering** Khaled Elleithy, 2010-03-10 Advanced Techniques in Computing Sciences and Software Engineering includes a set of rigorously reviewed world class manuscripts addressing and detailing state of the art research projects in the areas of Computer Science Software Engineering Computer Engineering and Systems Engineering and Sciences Advanced Techniques in Computing Sciences and Software Engineering includes selected papers from the conference proceedings of the International Conference on Systems Computing Sciences and Software Engineering SCSS 2008 which was part of the International Joint Conferences on Computer Information and Systems Sciences and Engineering CISSE 2008 *Software Engineering Education* Rosalind L. Ibrahim, 1995-02-17 This volume constitutes the proceedings of the 8th Conference on Software Engineering Education SEI CSEE 1995 held in New Orleans Louisiana USA in March April 1995 The volume presents 25 carefully selected full papers by researchers educators trainers and managers from the relevant academic industrial and governmental communities in addition there are abstracts of keynote speeches panels and tutorials The topics covered include curriculum issues Goals what should we be teaching Process issues Software engineering in special domains Requirements and designs People management and leadership skills Technology issues Education and training needs and trends Concise Encyclopedia of Software Engineering Derrick Morris, 2013-10-22 This Concise Encyclopedia of Software Engineering is intended to provide compact coverage of the knowledge relevant to the practicing software engineer The content has been chosen to provide an introduction to the theory and techniques relevant

to the software of a broad class of computer applications It is supported by examples of particular applications and their enabling technologies This Encyclopedia will be of value to new practitioners who need a concise overview and established practitioners who need to read about the penumbra surrounding their own specialities It will also be useful to professionals from other disciplines who need to gain some understanding of the various aspects of software engineering which underpin complex information and control systems and the thinking behind them

**Software Engineering Education for a Global E-Service Economy** Gianmario Motta,Bing Wu,2014-02-18 This book presents and discusses the state of the art and future trends in software engineering education It introduces new and innovative methods models and frameworks to focus the training towards the needs and requirements of the industry Topics included in this book are education models for software engineering development of the software engineering discipline innovation and evaluation of software engineering education curriculum for software engineering education requirements and cultivation of outstanding software engineers for the future and cooperation models for industries and software engineering education

**Second International Workshop on Software Engineering for Parallel and Distributed Systems** IEEE Computer Society,1997 The proceedings from the May 1997 workshop focus on software engineering issues that are particular to the development of applications for parallel and distributed systems Papers address issues of software verification and testing software development techniques and tools software design reuse and strategic directions of future research Also included are project reports and applications The papers are intended to maximize interaction and discussion among researchers working on application of formal methods validation testing tools design methodologies and coordination architectures Includes an author index only Annotation copyrighted by Book News Inc Portland OR

**Knowledge-based Software Engineering** Tatjana Welzer,Shuichiro Yamamoto,Ivan Rozman,2002 Annotation The book captures the latest developments in the areas of knowledge engineering and software engineering Particular emphasis is placed upon applying knowledge based methods to software engineering problems The Conference from which the papers are coming originated in order to provide a forum in which the latest developments in the field of knowledge based software engineering could be discussed Although initially targeting scientists from Japan the CIS countries and countries in Central and Eastern Europe the authors come from many countries throughout the world JCKBSE 2002 continues with this tradition and is anticipating even wider international participation Furthermore the scope of the conference as indicated by its topics has been updated to reflect the recent development in all the three covered areas i e knowledge engineering software engineering and knowledge based software engineering
