

Script Writing Basics: A Complete Guide

1. Script Writing Basics

Script writing is the process of preparing a text document that describes all of the actions and dialogue in an audio-visual presentation.

Scripts are used to help visualize what will happen on screen, but can also be used as a blueprint for actors when performing lines or choreographing scenes.

2. Scriptwriting Considerations

Scriptwriting is a very different beast from other types of writing. There are many considerations that need to be made, including the pitch, dialogue and how you intend for your audience to experience the story.

3. Writing Your Scriptwriting Idea

Writing your scriptwriting idea can seem like a daunting task.

Many people start and stop, trying to find the perfect story that will captivate their reader, but oftentimes they don't know where to begin.
