Sports Plus Positive Learning:

Sports Plus Jeffrey Pratt Beedy, 2016-01-18 Do sports teach us how to play well the game of life It all depends Most of us know from firsthand observation that sports can build character or undermine it They can foster fair play or dirty play honest competition or win at all costs They can promote teamwork or selfishness self control or fits of rage the ability to win and lose gracefully or neither In my lifetime the negative character effects of competitive sports have sadly become ever more common From Little League to professional athletics competitive sports have seemed increasingly to bring out the worst not the best in players and fans alike But as the PLUS curriculum makes clear it doesn't have to be that way Approached correctly sports can be an important tool for building the character of our children and helping to rebuild the character of our culture *Sports PLUS* Jeffrey Pratt Beedy, 2016 *Sports PLUS* Jeffrey Pratt Beedy, 1997 **PLUS Series** Matt Davidson Ph D, Jeffrey Beedy, 2021-02-21 The PLUS Series examines how coaches teachers and parents can create positive learning environments within children's sports Each series book is part of the larger PLUS Model *PLUS Series One* Dr Jeffrey P Beedy, Dr Matt Davidson, 2021-02-21 The Positive Learning Using Sports PLUS Series explores how children's sports can be intentionally designed to promote positive learning such as respect and responsibility Each book in the PLUS Series will examine different elements of children's sports such as how to create a positive philosophy and dialogue with the players about important life issues **Values in Youth Sport and Physical Education** Jean Whitehead, Hamish Telfer, John Lambert, 2013-12-04 As sport has become more intense professional and commercialized so have the debates grown about what constitutes acceptable behaviour and fair play and how to encourage and develop good sporting behaviour particularly in children and young people This book explores the nature and function of values in youth sport and establishes a framework through which coaches teachers and researchers can develop an understanding of the decision making processes of young athletes and how they choose between playing fairly or cheating to win The traditional view of sport participation is that it has a beneficial effect on the social and moral development of children and young people and that it intrinsically promotes cultural values This book argues that the research evidence is more subtle and nuanced It examines the concept of values as central organizing constructs of human behaviour that determine our priorities guide our choices and transfer across situations and considers the value priorities and conflicts that are so useful in helping us to understand behaviour in sport The book argues that teachers and professionals working with children in sport are centrally important agents for value transmission and change and therefore need to develop a deeper understanding of how sport can be used to encourage pro social values and offers suggestions for developing a curriculum for teaching values through sport in differing social contexts Spanning some of the fundamental areas of sport practice and research including sport psychology sport pedagogy practice ethics and positive youth development through sport and including useful values and attitudes questionnaires and guidance on their use and interpretation this book is important reading for any student researcher coach or teacher with an interest in

youth sport or physical education Handbook of Moral and Character Education Larry Nucci,Tobias Krettenauer,2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students In fact 80% of US states currently have mandates regarding character education However the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more

Sport Coaching with Diverse Populations James Wallis,John Lambert,2020-10-25 Sports coaches apply their skills in a wider variety of contexts and with a more diverse range of athletes and participants than ever before This book introduces the professional competencies and knowledge needed to build successful working relationships across the different communities and groups with which coaches operate The book offers important insight for coaches who work with specific populations including different age groups black Asian and minority ethnic BAME people those of different gender or sexual orientation individuals with disabilities or illness the socio economically disadvantaged and refugees Drawing on real world case studies such as coaching girls in combat sports and coaching cardiac rehab patients and adopting a critical approach to values philosophy and pedagogic process this book argues that understanding the recipient of coaching and their particular needs is as important as content knowledge With contributions from leading coaching researchers and practitioners this is important reading for developing coaches students on sports courses and other individuals involved in the sport pedagogy domain who seek to gain a better understanding of the demands of meeting the specific needs of people in the coaching process Harvard Magazine ,1997 **Physical & Health Education Journal** ,2006 Canada s magazine for physical and health educators The Handbook of Private Schools Porter Sargent,2003-05 *Cumulative Book Index* ,1998 A world list of books in the English language Good Housekeeping ,1927 **Program for Athletic Coaches' Education (PACE)** Vern Seefeldt,Eugene W.
