Talent Solution:

The Talent Solution: Aligning Strategy and People to Achieve Extraordinary Results Edward L. Gubman, 1998-01-22

Today's workplace is facing a talent crisis. The economy is booming but companies are finding it harder to fill positions and keep good people. The Talent Solution holds the key to leveraging a company's most vital competitive advantage: its people. In this research-driven, ground-breaking book, Gubman shows top managers exactly how to boost performance by aligning strategy and employees. More than a quick fix, The Talent Solution will enable managers to transform their organization into a world-class competitor.

The Coaching Connection John Hoover, Paul Gorrell, 2009-08-19. Traditional coaching methods have focused entirely on the individual, sometimes even at the expense of improving measurable business results for the company. Now authors John Hoover and Paul J. Gorrell, both notable leaders and talent experts, show managers how they can use contextual coaching to ensure both individuals and organizations experience the highest probability for success. Contextual coaching uses a dual-focus systems approach to align coaching processes with the strategies, cultural imperatives, talent management systems, communication practices, and competency requirements of an entire organization. The Coaching Connection teaches readers how to apply this methodology by taking all of these factors into consideration within their own organizational context. When coaching initiatives are successful, individual and organizational interests become one. Including a 360-degree assessment covering the ten most essential skill sets of well-balanced and effective leaders, as well as systems for measuring and managing talent, The Coaching Connection helps companies improve both their people and their bottom-line results.
