ALL COLOURS OF TRANSLATION

Matthew Reynolds (ed.), 2019. *Prismatic Translation*,
Cambridge: Legenda

Abstract

This article discusses the volume of essays *Prismatic Translation*, edited by Matthew Reynolds (Cambridge: Legenda, 2019) in light of the history of optical metaphors for translation and recent modernist studies. Tracing the conceptual genealogy of the term and the subtleties of its theoretical usage, the author argues that “prismatic translation” remains an impressive though still excessively ambiguous translation studies metaphor that has not yet solidified into a precise and operative theoretical tool. Notwithstanding these objections, *Prismatic Translation* can be considered an excellent reference volume for professionals and students engaged in literary and cultural translation studies, as well as comparative modernist studies.

Keywords: prismatic translation, Matthew Reynolds, translation studies, modernist studies, translation metaphors, experimental translation

The term “prismatic translation” has only recently been introduced in cultural translation studies discourse but, as confirmed in *The Routledge Handbook of Translation and Activism* (2020), it has already entered the fundamental vocabulary of the discipline. It can even be said that it has joined the family of frequently repeated “terms-signposts, terms-slogans, terms-calls”¹

¹ Janusz Sławiński’s terms used in reference to the newly introduced term “intertextuality” in Polish literary studies (Sławiński 1999: 154).
