Framework Virtual Collaboration:

Facets of Virtual Environments Fritz Lehmann-Grube, Jan Sablatnig, 2010-02-14 In recent years the popularity of virtual worlds has increased significantly and they have consequently come under closer academic scrutiny. Papers about virtual worlds are typically published at conferences or in journals that specialize in something entirely different related to some secondary aspect of the research. Thus a paper discussing legal aspects of virtual worlds may be published in a law journal while a psychologist's analysis of situation awareness may appear at a psychology conference. The downside of this is that if you publish a virtual worlds paper at an unrelated conference in this manner you are likely to be one of only a handful of attendees working in the area. You will not therefore achieve the most important goal of attending conferences: meeting and conversing with like-minded colleagues from the academic community of your field of study. Virtual worlds touch on many well-established themes in other areas of science. Researchers from all these fields will therefore be looking at this new interesting and growing field. However to do effective research related to these complex constructs researchers need to take into account many of the other facets from other fields that impact virtual worlds. Only by being familiar with and paying attention to all these different aspects can virtual worlds be properly understood.

Gender and Digital Media Hakan Ergül, 2026-03-31 *Gender and Digital Media: A Critical Companion* offers an accessible and comprehensive introduction to the evolving relationship between gender and digital media. Covering topics such as queer and trans communities, online digital intimacy, feminist approaches to technology, gaming, fandom and fanfiction, online digital diaspora, genre representation and gendered hate in digital spaces, this textbook explores how gender is shaped and represented onscreen and online across intersections of identity, class, race, age, sexuality and technology. Each chapter opens with a critical overview of a key theme by a leading expert, followed by a short essay from a graduate student that grounds these ideas in concrete contemporary examples. This layered structure encourages critical thinking and connects theory to concrete cases and lived experience. Designed with pedagogy in mind, this book includes a range of tools and activities that support both independent and collaborative learning. *Gender and Digital Media: A Critical Companion* is ideal for advanced undergraduate and graduate students in gender studies, media studies, cultural studies, media sociology, arts and humanities and the social sciences exploring human-technology interactions and digital everyday life. Individuals in B2B Marketing Maria Ivanova-Gongne, Lasse Torkkeli, Nikolina Koporcic, Wilhelm Barner-Rasmussen, 2024-06-21 The business world consists of interlinked entities which require acting cooperatively in order to reach the desired aims Individuals are at the core of business to business B2B marketing and are responsible for making decisions negotiating networking branding and all other of the firm's vital processes Especially in small and medium sized enterprises SMEs the role of individuals is important as those in charge of the SMEs are often the face and the mind of a company However the role of the individual in B2B marketing literature has often been overlooked This book covers the gap by providing a variety of novel perspectives that involve individuals as central figures in the B2B marketing environment This book will provide practical implications on the topics in focus which will bring the role and importance of individuals to the fore in the understanding of how B2B marketing works It introduces readers to the role of embedded individual managers in developing and changing business systems and networks and consists of three core sections cognition individual sensemaking within a business environment action decision making in business networks and finally contextualization interrelation between micro and macro levels Each section is supported with case studies to exemplify the research ideas presented Individuals in B2B Marketing offers a comprehensive investigation into this much overlooked topic and will be a valuable resource for marketing entrepreneurship and international business scholars and graduate students in particular
