Reimagining Rural Gregory M. Fulkerson, Alexander R. Thomas, 2016-06-20 Reimagining Rural Urban normative Portrayals of Rural Life examines the ways in which rural people and places are being portrayed by popular television reality television film literature and news media in the United States It is also an examination of the social processes that reinforce urban normative standards that normalize urban life and render rural life as something unusual exotic or deviant This includes exploring the role of the media as agenda setting agent informing people what and how to think about rural life Further it includes scrutinizing the institution of formal education that promotes a homogenous urban oriented curriculum while in the process marginalizing the unique characteristics of local rural communities These contributions are some of the only studies of their kind investigating popular cultural representations of rural life while providing powerful evidence and unique challenges for an urban society to rethink and reimagine rural life while confronting the many stereotypes and myths that exist *The Conflict Management Handbook: How to Quench the Fires that Burn Relationships (4th edition)*, *Who Rules the Net?* Adam D. Thierer, Clyde Wayne Crews, 2003 The rise of the World Wide Web is challenging traditional concepts of jurisdiction governance and sovereignty Many observers have praised the Internet for its ubiquitous and borderless nature and argued that this global medium is revolutionizing the nature of modern communications Indeed in the universe of cyberspace there are no passports and geography is often treated as a meaningless concept But does that mean traditional concepts of jurisdiction and governance are obsolete When legal disputes arise in cyberspace or when governments attempt to apply their legal standards or cultural norms to the Internet how are such matters to be adjudicated Cultural norms and regulatory approaches vary from country to country as reflected in such policies as free speech and libel standards privacy policies intellectual property antitrust law domain name dispute resolution and tax policy In each of those areas policymakers have for years enacted myriad laws and regulations for realspace that are now being directly challenged by the rise of the parallel electronic universe known as cyberspace Who is responsible for setting the standards in cyberspace Is a U N for the Internet or a multinational treaty appropriate If not whose standards should govern cross border cyber disputes Are different standards appropriate for cyberspace and real space Those questions are being posed with increasing frequency in the emerging field of cyber law and constitute the guiding theme of this book s collection of essays Book jacket *Flying* Eric Kraft, 2009-03-03 Critics have compared him to Proust Pynchon and Fred Astaire an artful slyly intelligent wildly inventive observer of Americana Now Eric Kraft has landed an ambitious comedy set both in our present and in an alternative 1950s universe Flying It is the tail end of the 1950s and in the town of Babbington New York a young dreamer named Peter Leroy has set out to build a flying motorcycle using a design ripped from the pages of Impractical Craftsman magazine This two wheeled wonder will carry him not only to such faraway places as New Mexico and the Summer Institute in Mathematics Physics and Weaponry but deep into the heart of commercialized American culture and return him to Babbington a hero

More than forty years later as Babbington is about to rebuild itself as a theme park commemorating his historic flight Peter must return home to set the record straight and confess that his flight did not match the legend that it inspired Drawing together Eric Kraft's previously published *Taking Off* and *On the Wing* with the brand new final part of the story *Flying Home* *Flying* is a buoyant comedy of remarkable wingspan a hilarious story of hoaxes digressions do it yourself engineering and the wilds of memory and a great satire of magical thinking in America

While America Sleeps Donald Kagan, Frederick Kagan, 2014-09-30 In *While England Slept* Winston Churchill revealed in 1938 how the inadequacy of Britain's military forces to cope with worldwide responsibilities in a peaceful but tense era crippled its ability to deter or even adequately prepare for World War II In *While America Sleeps* historians Donald and Frederick Kagan retrace Britain's international and defense policies during the years after World War I leading up to World War II showing in persuasive detail how self delusion and an unwillingness to face the inescapable responsibilities on which their security and the peace of the world depended cost the British dearly The Kagans then turn their attention to America and argue that our nation finds itself in a position similar to that of Britain in the 1920s For all its emergency interventions the U S has not yet accepted its unique responsibility to take the lead in preserving the peace Years of military cutbacks the peace dividend following the buildup and triumph over Communism of the Reagan years have weakened our armed forces and left us with too few armed forces to cover too many possible threats This has caused us to bank everything on high tech smart weapons some of which have not yet been invented and others that we are not acquiring or deploying as opposed to the long term commitment of money fighting men and women and planning that the deterrence of a major war would require This failure to shape a policy and to commit the resources needed to maintain peace has cost valuable time in shaping a peaceful world and has placed America's long term security in danger The policies of the Bush and Clinton administrations have left us in a position where we cannot avoid war and keep the peace in areas vital to our security Neither have the post Cold War policies sent clear signals to would be aggressors that the U S can and will resist them Tensions in the Middle East instability in eastern Europe and the former Soviet Union the nuclear confrontation between India and Pakistan the development of nuclear weapons and missiles by North Korea and the menacing threats and actions of China with its immense population resentful sense of grievance and years of military buildup all hint that the current peaceful era will not last forever Can we make it last as long as possible Are we prepared to face its collapse *While America Sleeps* is a sobering fascinating work of history that poses a thoughtful challenge to policy makers and will interest military buffs as well as readers interested in history and international relations

On the Wing Eric Kraft, 2014-10-28 In *Taking Off* the first installment of Eric Kraft's beguiling trilogy Peter Leroy built an aerocycle in his parents garage working from designs he found in *Impractical Craftsman* magazine Cheered on by the gathered residents of his small Long Island beach community Peter readied his contraption for the adventure of a lifetime a solo cross country flight to New Mexico and back Now Peter is ready to fly and in *On the Wing* he tells the hilarious tale of

his journey across a mid century America populated by eccentrics crackerbarrel philosophers and figments of the national imagination In small hops mostly consisting of taxiing and landing he visits roadside attractions and unusual towns one where every casual expression and idiom is questioned hence a diner offering Real Diner Cooking rather than real home cooking another where he is chased with pitchforks and shotguns by citizens still traumatized by Orson Welles s War of the Worlds a remote crossroads where he finds himself under attack by a low flying plane and finally a town near Roswell New Mexico where Peter becomes a phenomenon to rival Roswell s reputation for alien invasion Along the way Peter encounters other on the roaders and finds himself pursued by a mysterious dark haired girl who continues to appear in different guises and seems strangely familiar though he can t quite place her face And in a parallel contemporary journey undertaken with his wife Albertine the adult Peter revisits his long ago journey navigating as Albertine drives a vintage automobile through a much changed America and misremembering every step of the way On the Wing is a playful but profound novel about an Icarus who does not crash and burn but grows older wiser and productively forgetful as he reimagines his boyhood to create the story of his life
